1

When navigating a service users Care Plan in Care Control Pocket, press the ‘**Record**‘ button from the options along the bottom of the screen.

2

A full list of monitoring areas will be displayed, including those that are Single Custom Form’s.

Select one to begin.

* Date: 04/04/2024 * Time: 15:49

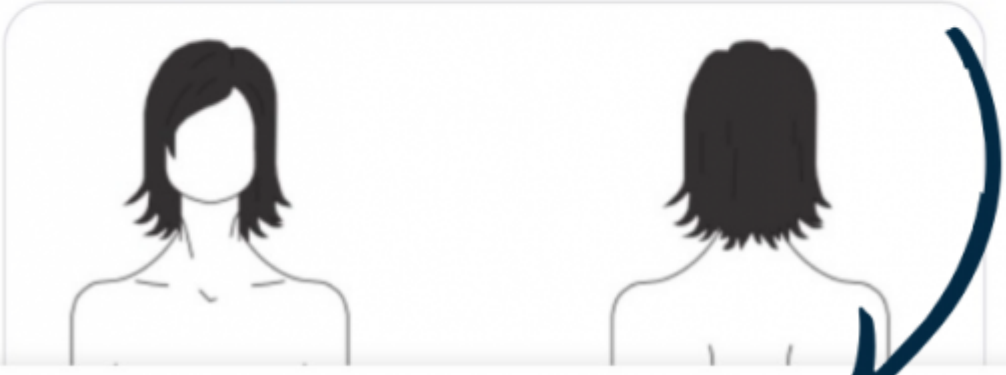
Red Flag Record: Don't Red Flag

Link to Health Issue: None Selected

0 0 -2

Section 1. Section 1

* 1. Body Map



Flag to CR Save Draft Submit

3

The selected form will open in Pocket, by launching Care Control Cloud within the application.

This can only be achieved if the staff member has a Cloud user account, and, if the option to open SCF’s is enabled in Windows (see here).

You can close the form by pressing the **back** button in the top left corner. Alternatively, continue to complete the form, then press **Submit**.

4

This will save the record and you will be returned to the service users Care Plan in Pocket.
