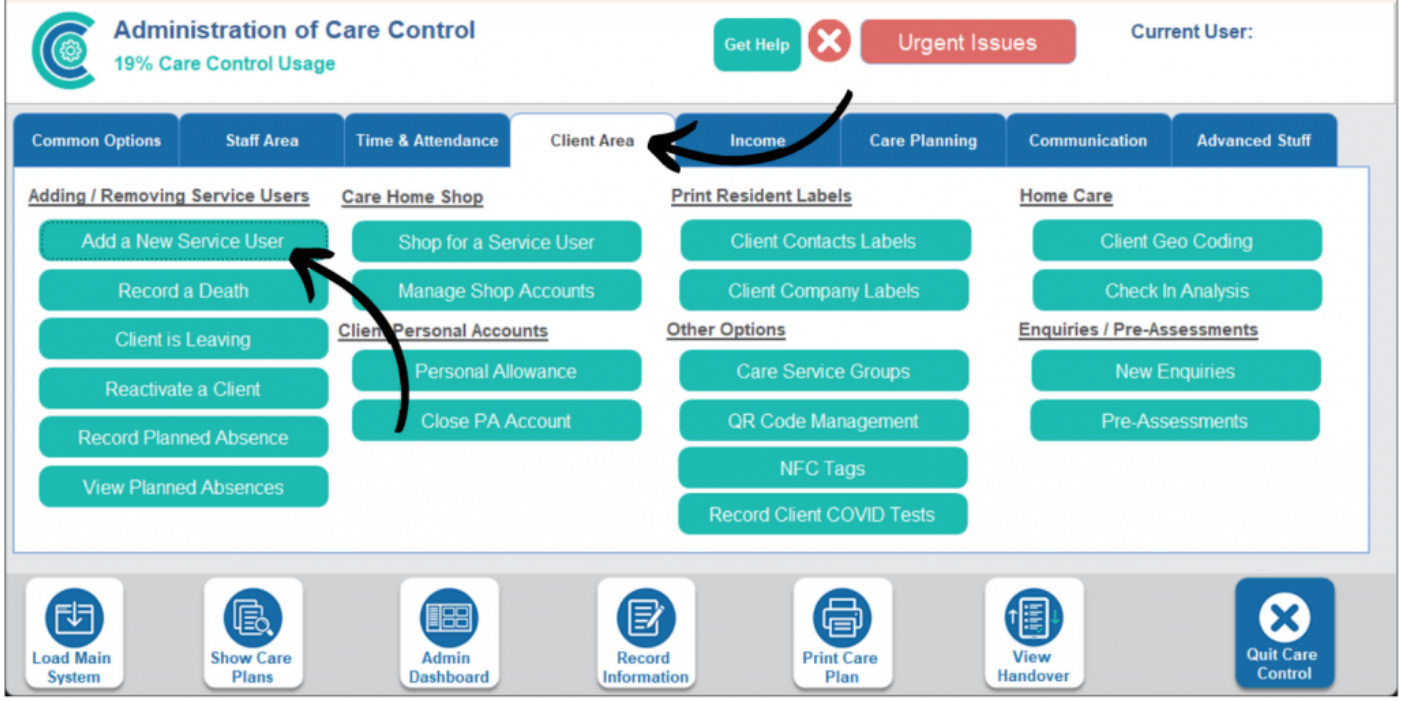
Additional Service User Licenses

Care Plans Windows · https://cclearninghub.co.uk/docs/additional-service-user-licenses/

Additional Service User Licenses

This guide will cover how you can increase the number of service user licenses available on your system.



1

In the Administration of Care Control Windows, navigate to the **Add a New Service User** tool, which can be found under the Client Area tab.

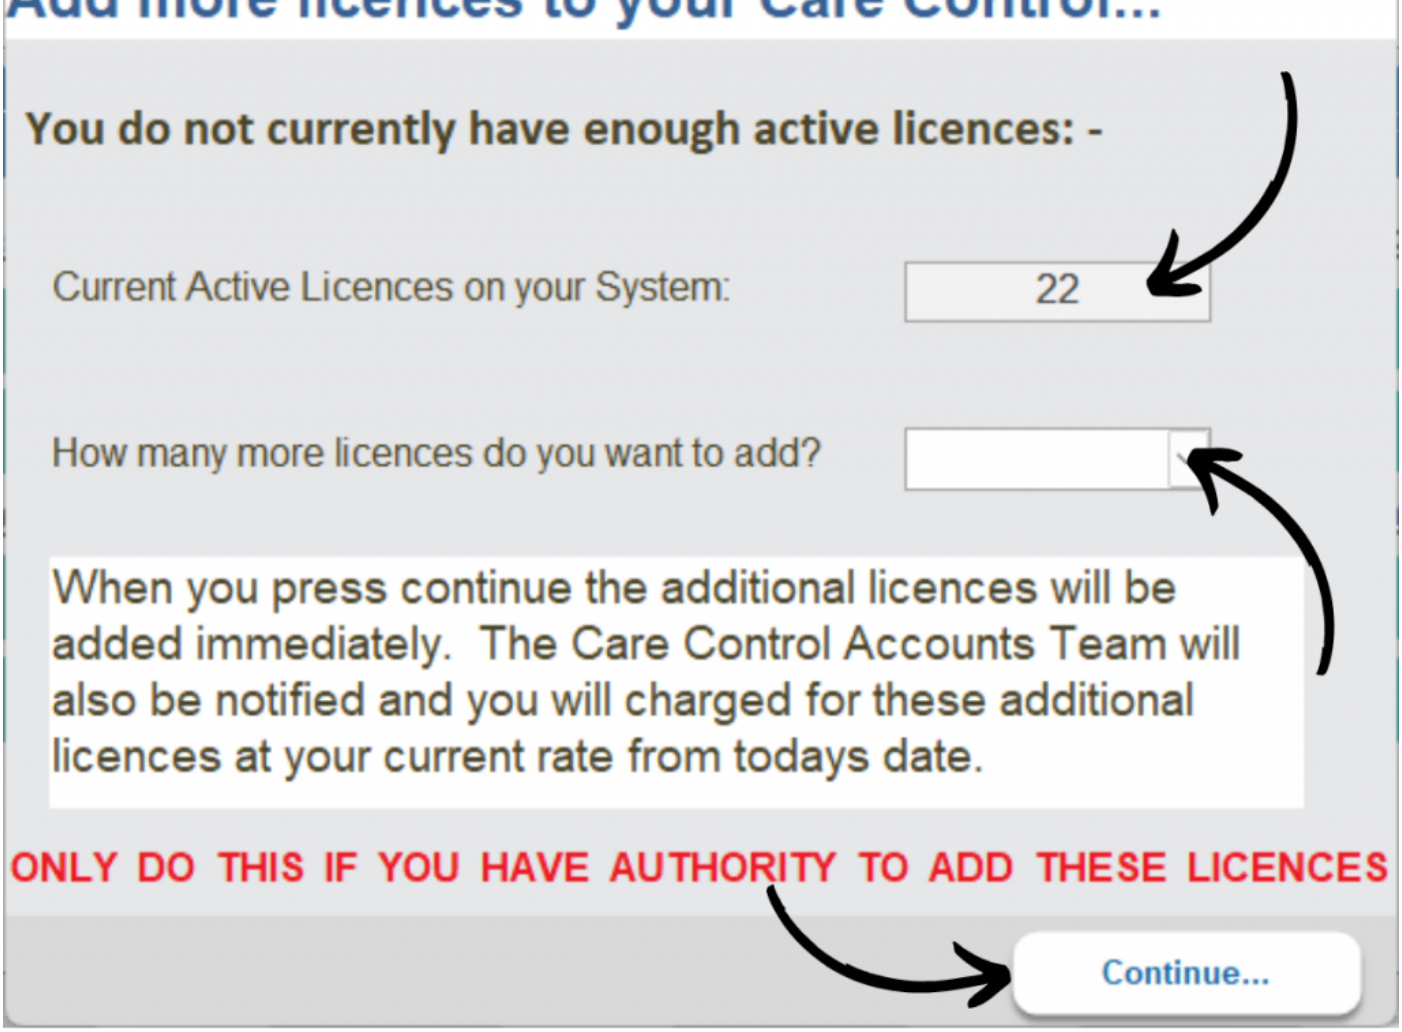
2

If you have run out of service user licenses, this window will open.

Here, you can see the current number of active licenses. To add more, simply select a number from the drop-down list and press **Continue**.

Your new license will be immediately available and our Accounts Team will be informed so that you can be charged accordingly.

Please note, this window only appears if all of your current licenses are in use. If you wish to increase your licenses in advance, please contact our Accounts team.



Add more licences to your Care Control...
You do not currently have enough active licences: -
Current Active Licences on your System:
22
How many more licences do you want to add?
When you press continue the additional licences will be added immediately. The Care Control Accounts Team will also be notified and you will charged for these additional licences at your current rate from todays date.
ONLY DO THIS IF YOU HAVE AUTHORITY TO ADD THESE LICENCES
