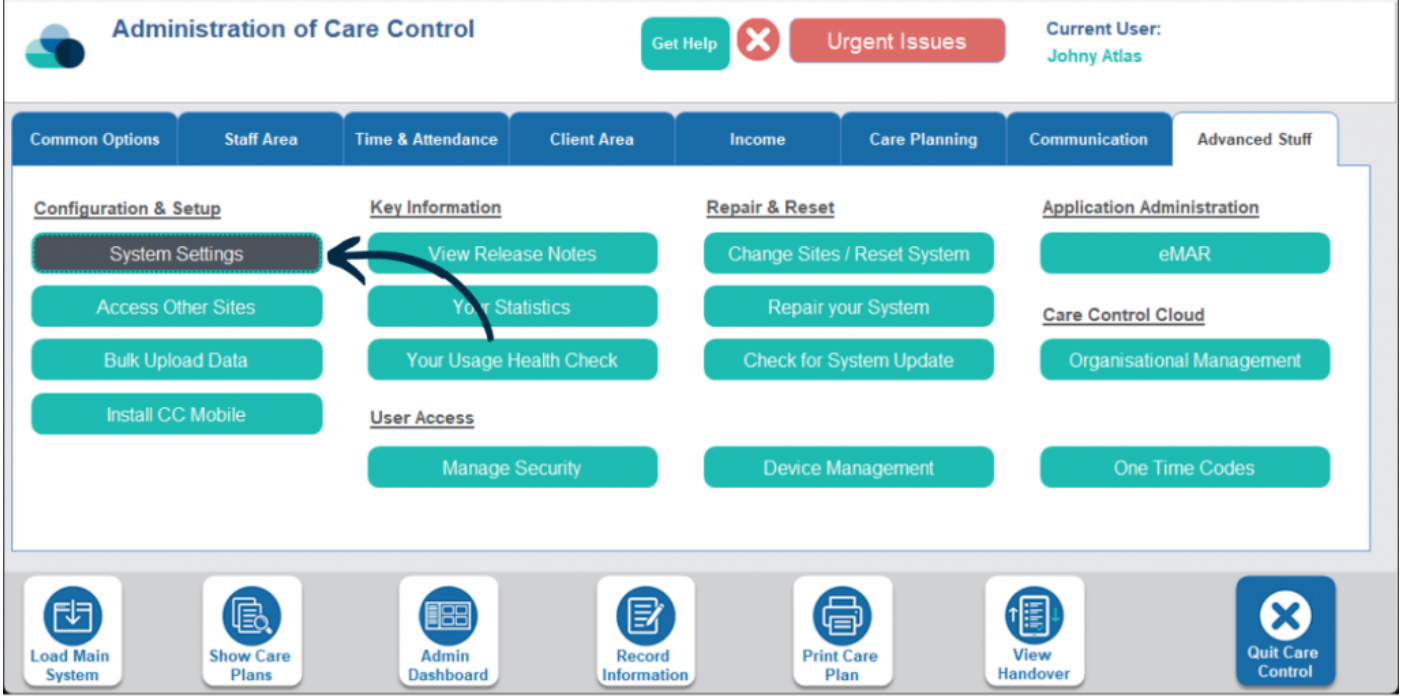
Amending Care Review Domains within a Care Review

Care Reviews Windows · https://cclearninghub.co.uk/docs/amending-care-review-domains-within-a-care-review/

Amending Care Review Domains

This guide will cover how to edit the domains of a care review when completing one for a service user. This feature needs to be enabled within the System Settings on Care Control Windows.



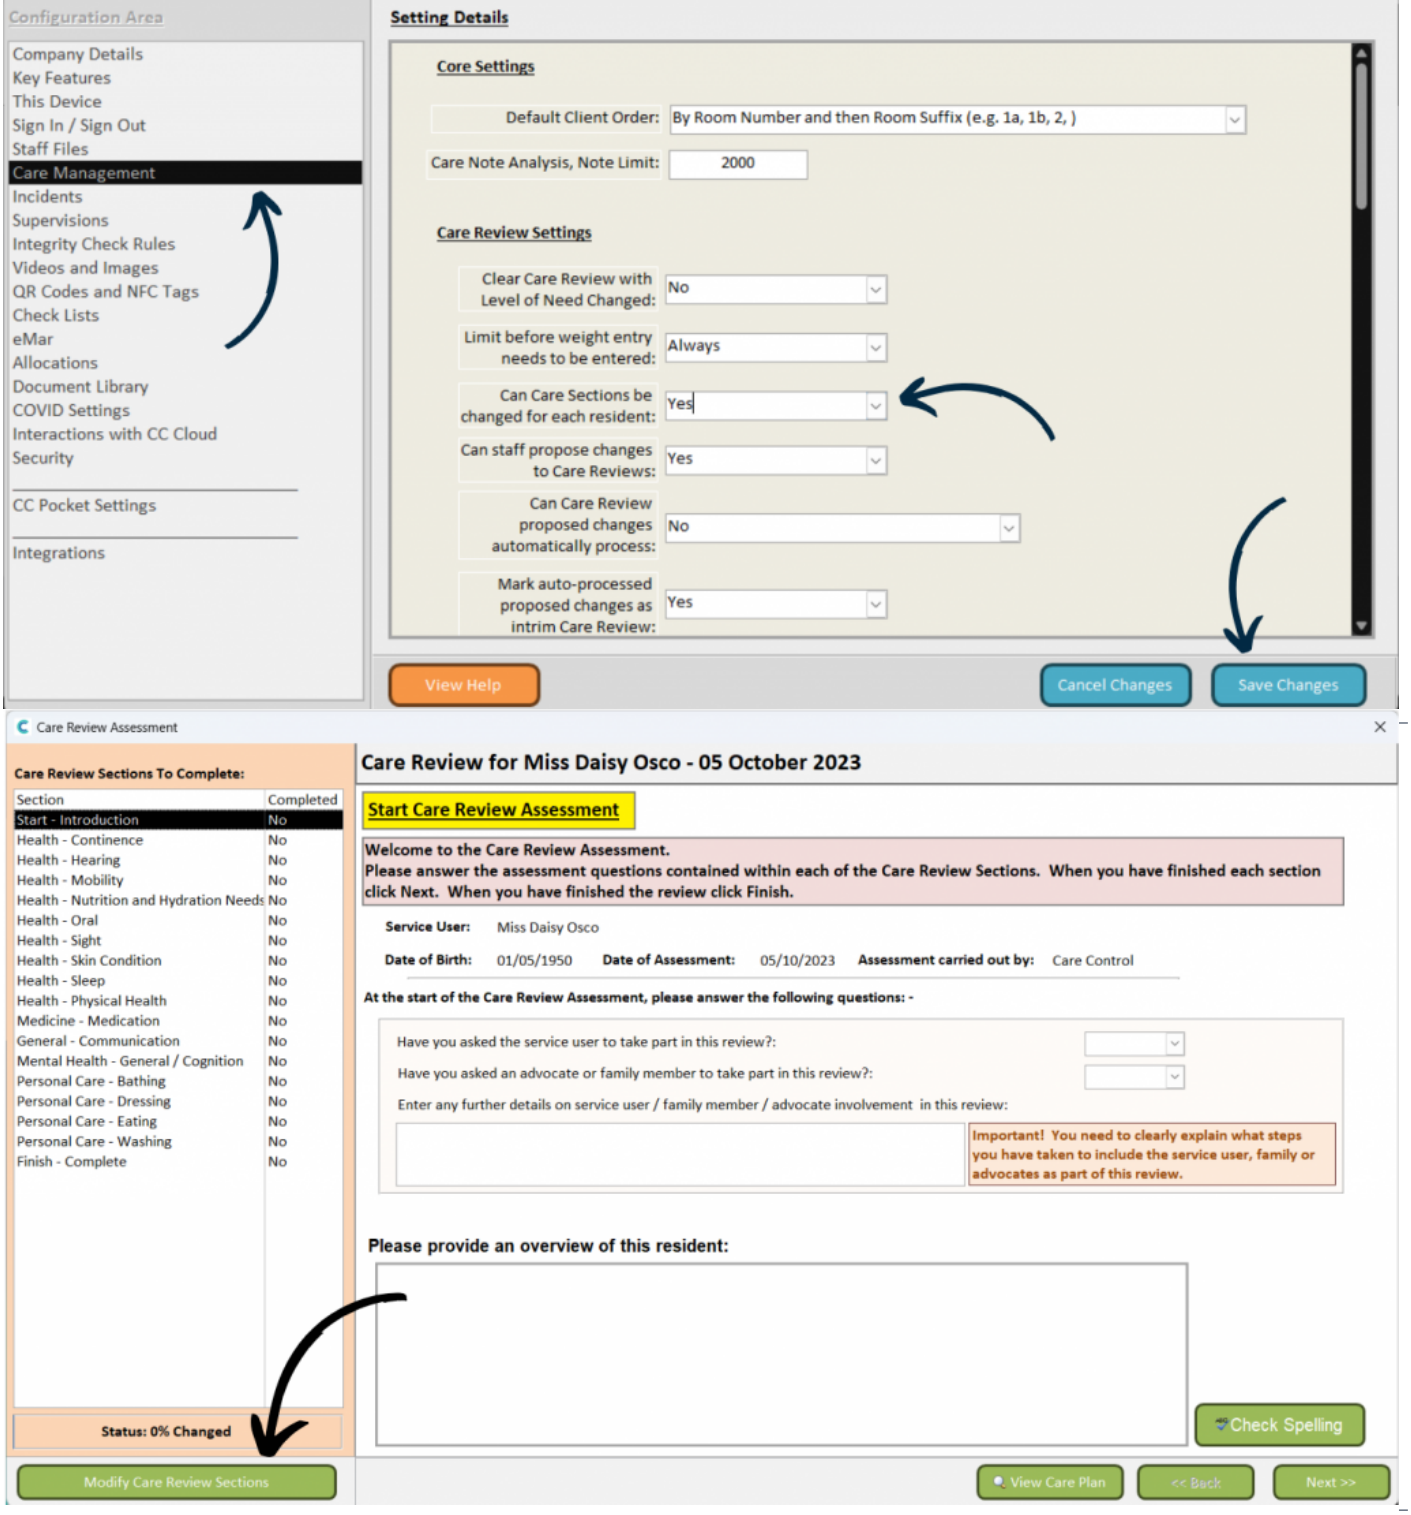
1

In the Administration of Care Control Windows, navigate to the **System Settings**, which can be found under the Advanced Stuff tab.

2

Here, select **Care Management** from the menu on the left hand side. Then, find the '*Can Care Sections be changed for each resident?*' setting – change this to **Yes**.

Finally, press **Save Changes**.



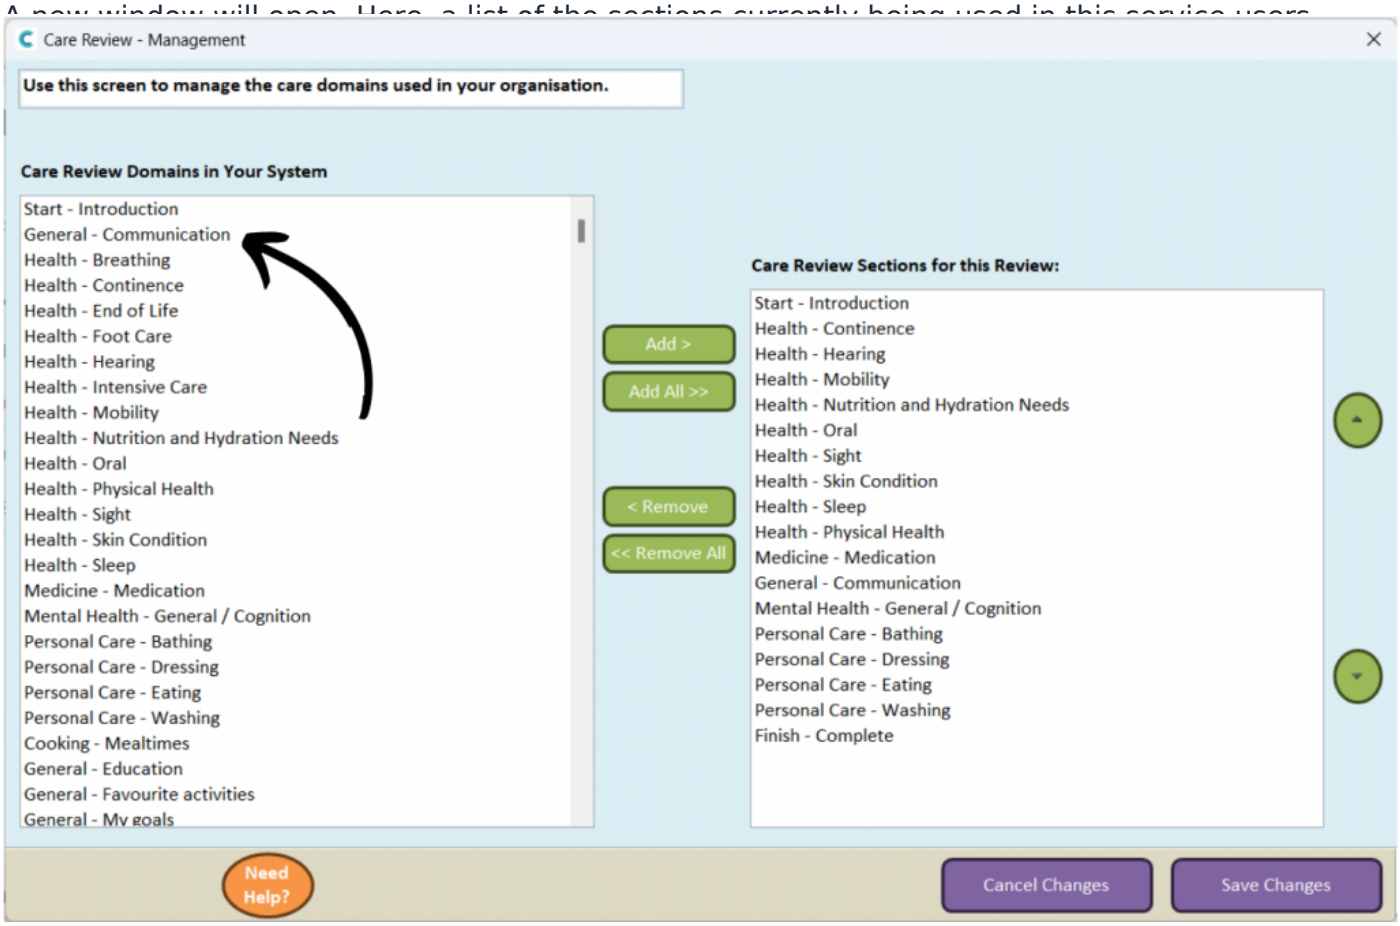
3

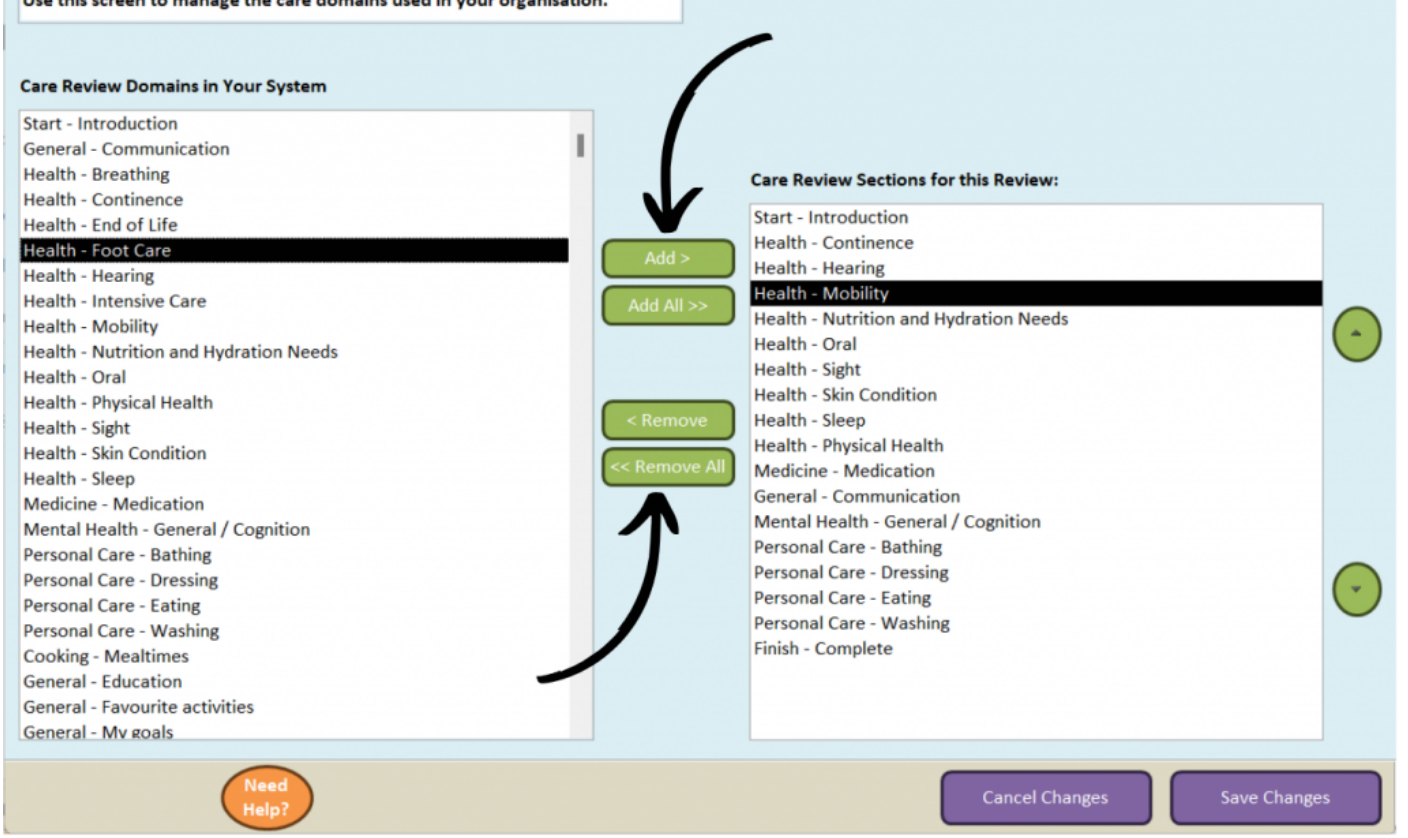
Now, when you begin a service users **Care Review**, a list of the active domains will display on the left hand side.

You can amend these by pressing **Modify Care Review Domains** in the bottom left corner.

4

A new window will open. Here, a list of the sections currently being used in this service users





5

Select a section on the left and press **Add** to move it into the care review. In the same way, select a section on the right and press **Remove** to take it out of the care review.

Press **Save Changes** after completing any amendments.

6

The list of sections will update to mirror your amendments.

You can now continue to complete the review.
