Configuration of Biometrics

This guide will cover how to configure the sign in settings for use with Care Control Biometric.

1

In the Administration of Care Control Windows, navigate to the **System Settings** which can be found under the **Advanced Stuff** tab.

2

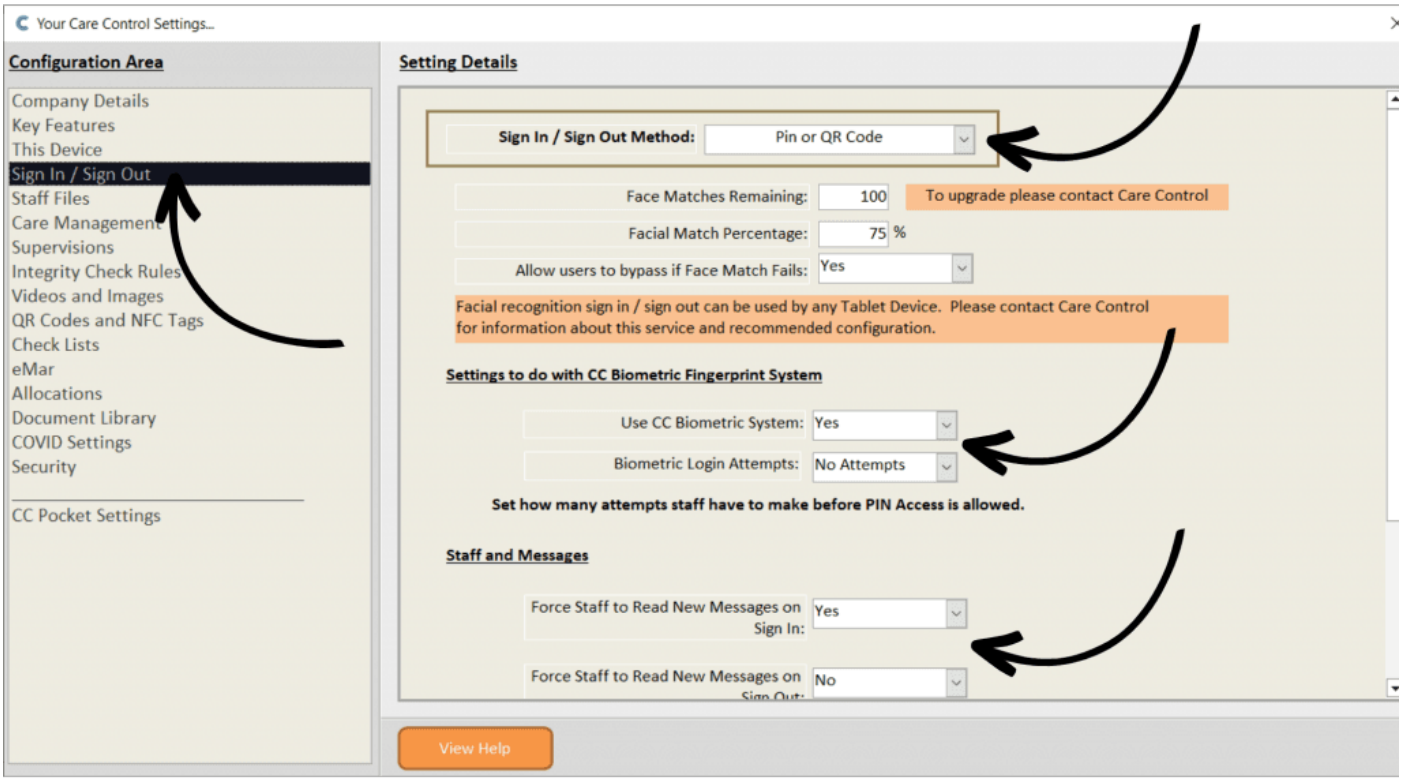
Next, select **Sign In / Sign Out** settings from the menu on the left-hand side of the window.

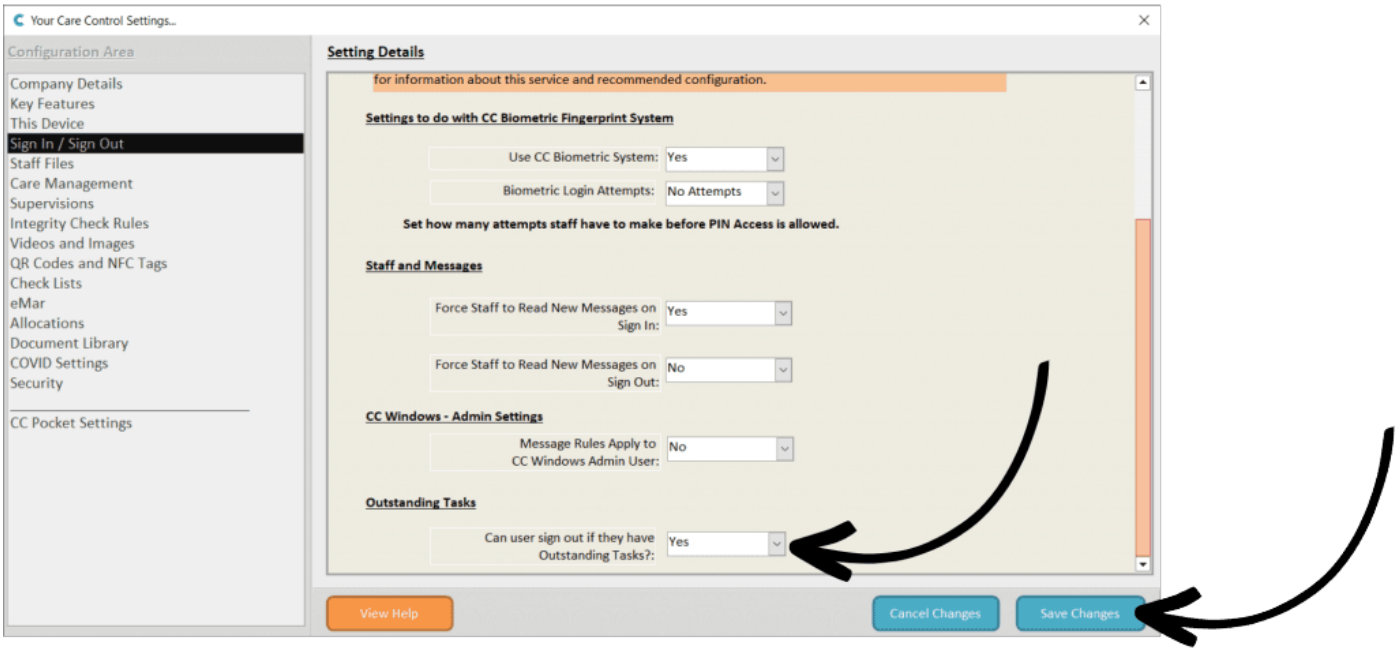
In the first section of settings:

- You can choose the **Sign In / Out method**. If using Biometric, select this.
- You can set it to Use **CC Biometric**, as well as the number of **Biometric Log-In Attempts**.

The next section covers **Staff and Messages**:

- You can choose to **Force Staff to Read New Messages** on both sign-in and sign-out.





3

Next, you can choose whether **Message Rules Apply to Admin Users** and whether **Users Can Sign Out with Outstanding Tasks**.

After making any amendments to the settings here, press **Save Changes**.
