Device Management

This guide will cover how to use the **Device Management** tool within Care Control Windows.

This feature allows overview of active devices in your organisation. You can activate and deactivate devices, as well as amend eMAR log in status.

1

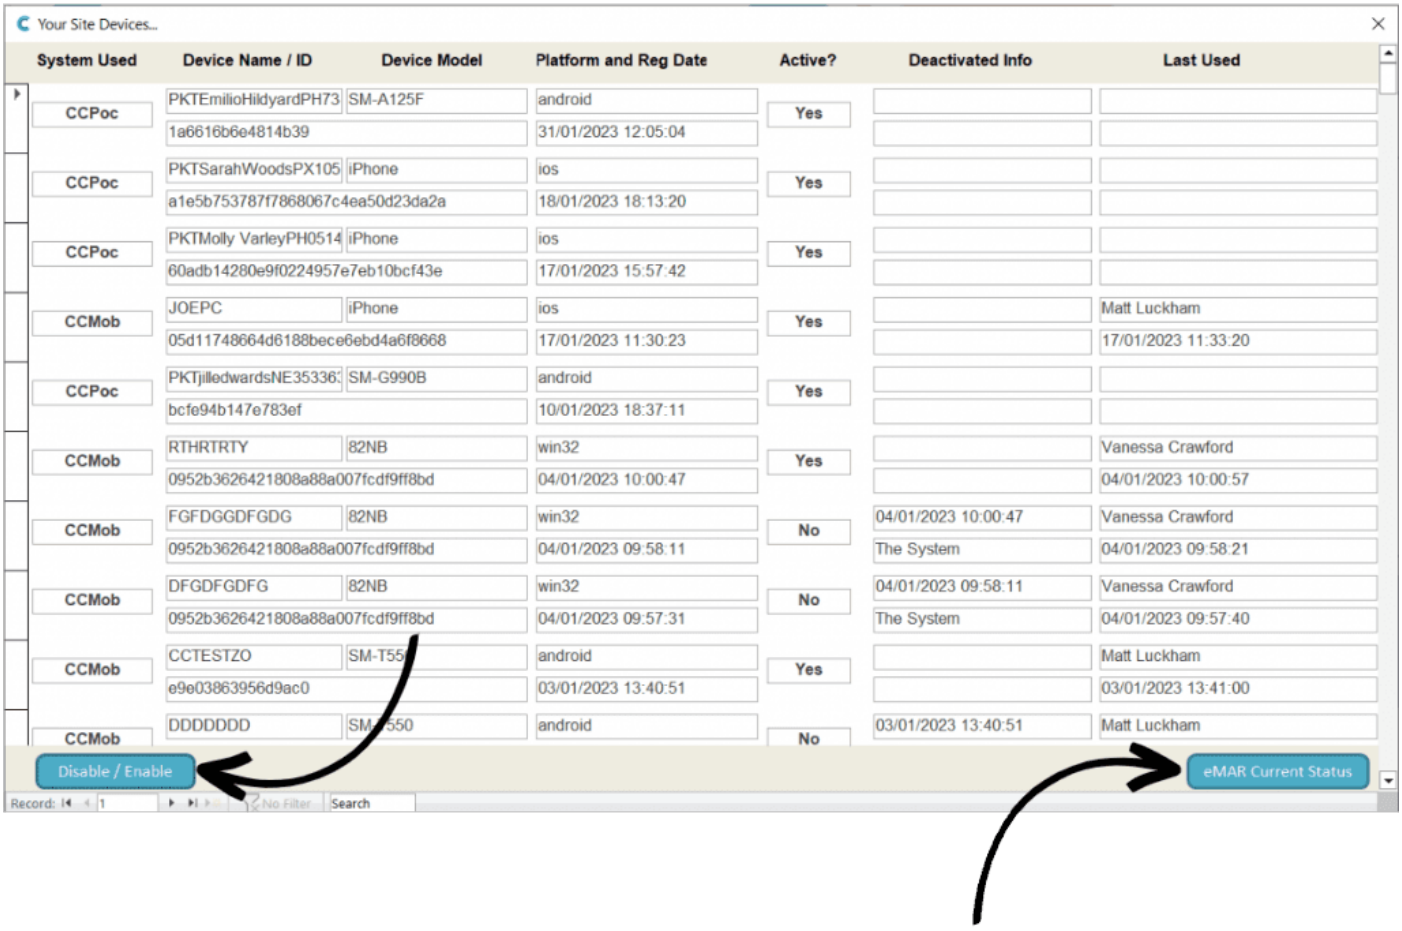
In the **Administration of Care Control Windows**, navigate to **Device Management**, which can be found under the **Advanced Stuff** tab.

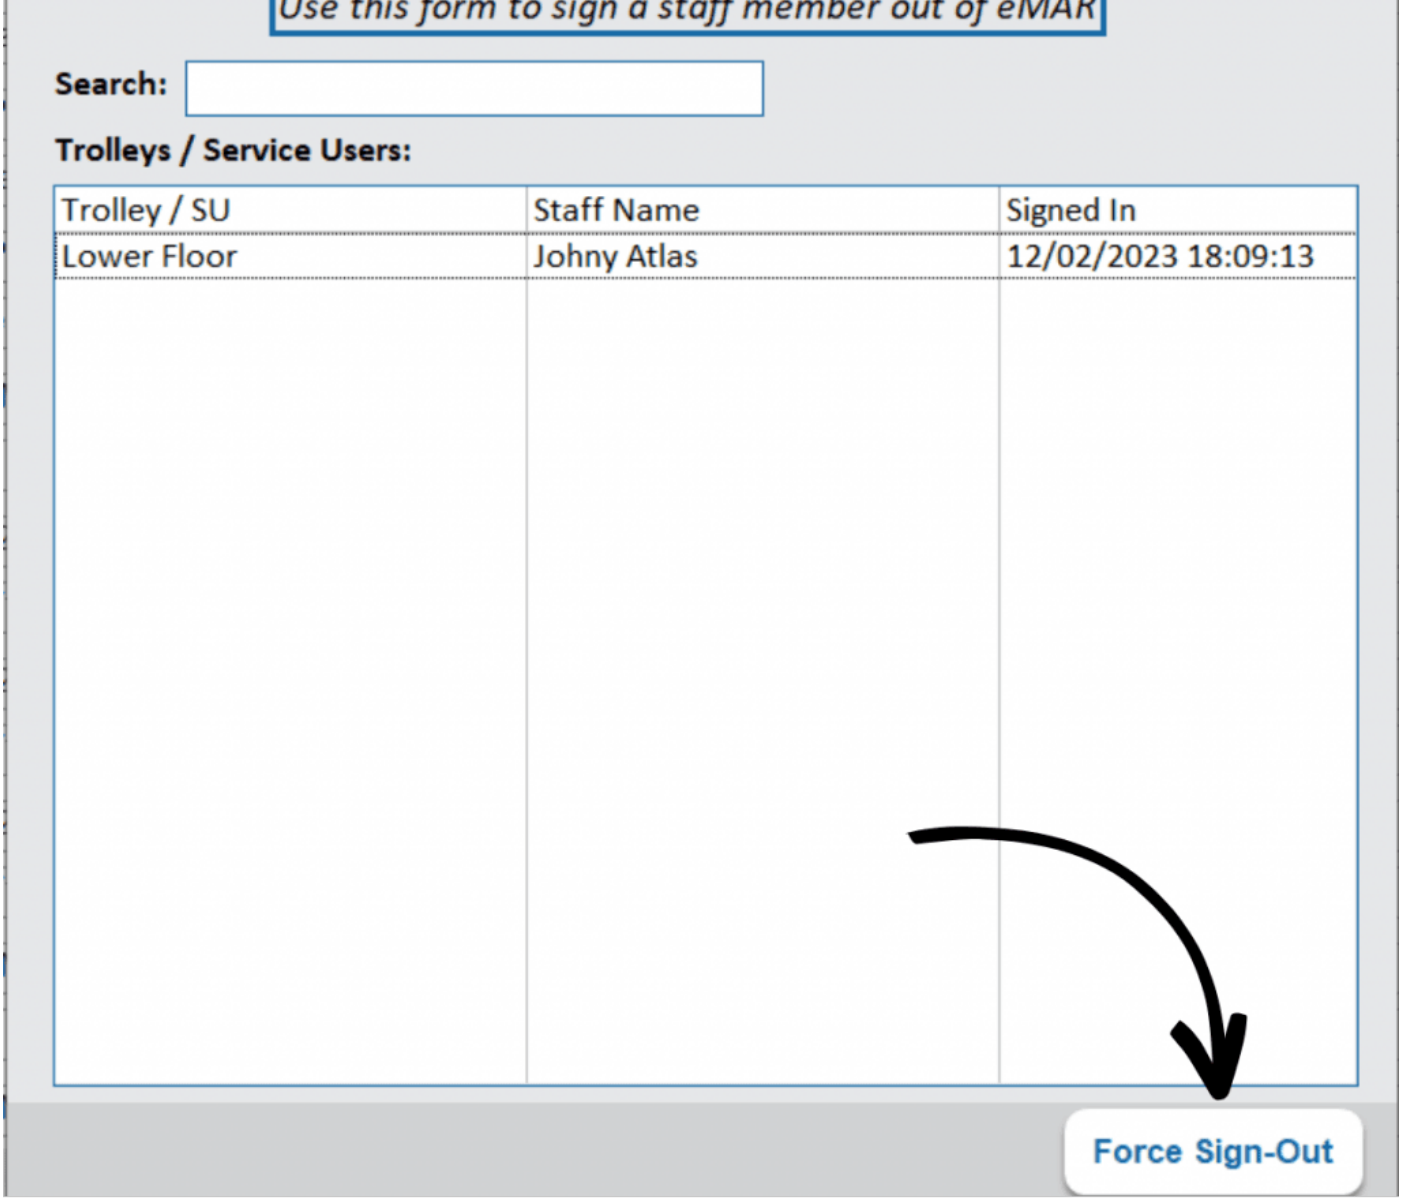
2

Here, is a list of all active devices which were signed up using your organisation’s Site Code. To deactivate a device, select it by pressing the checkbox on the left-hand side of the window, then

press **Disable / Enable**.

To view the eMAR sign-in status, press **eMAR Current Status**.





3

A new window will open. A list of staff members signed in to administer will be displayed. You can sign them out by selecting their name and pressing **Force Sign Out**.
