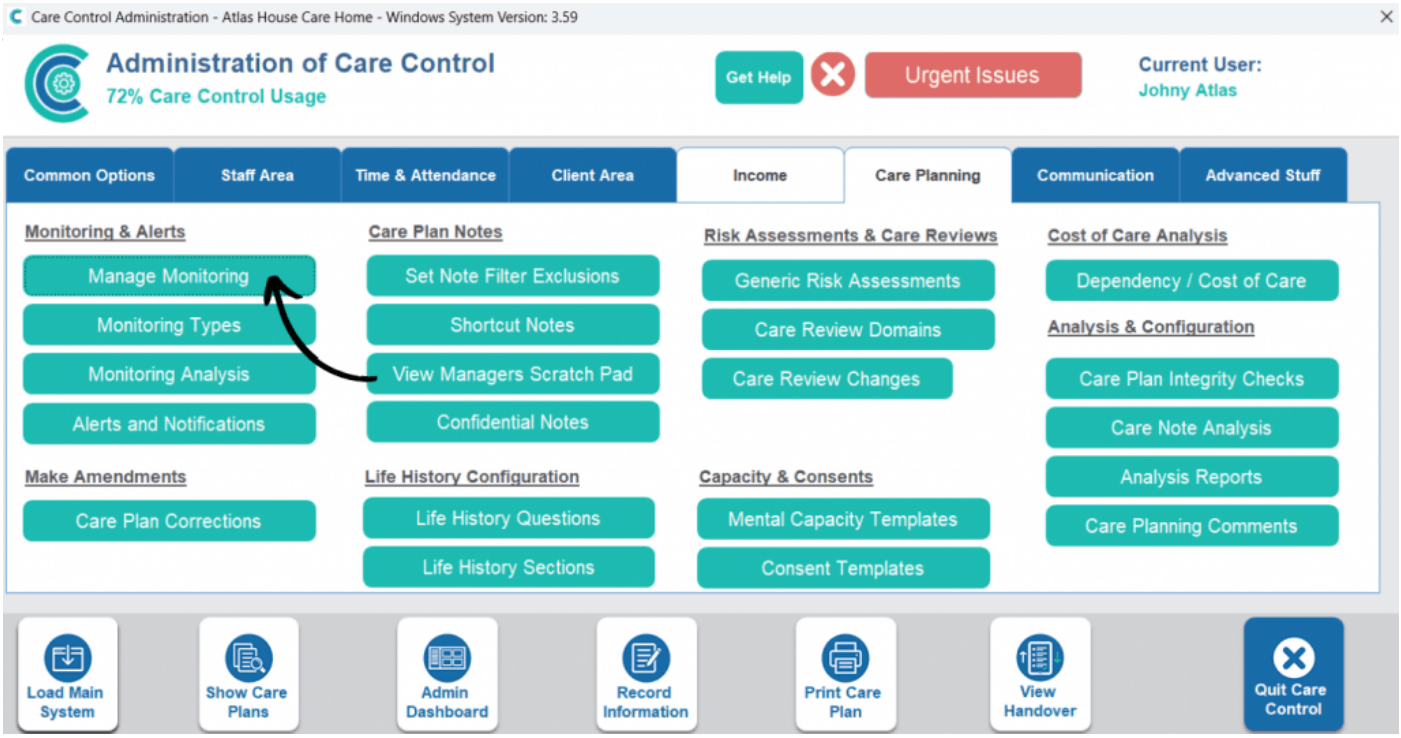
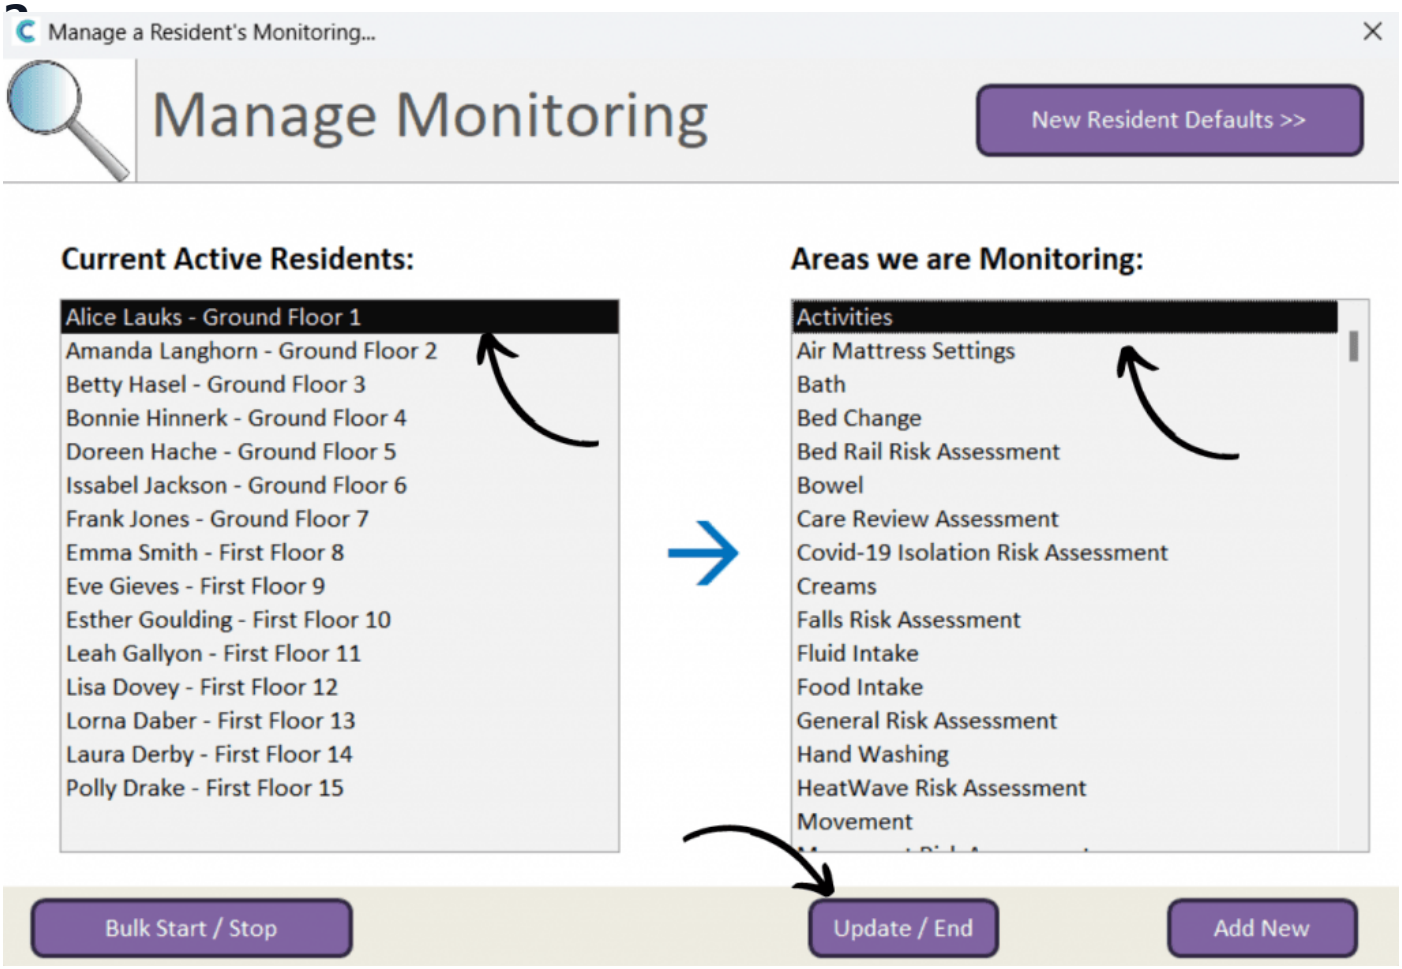
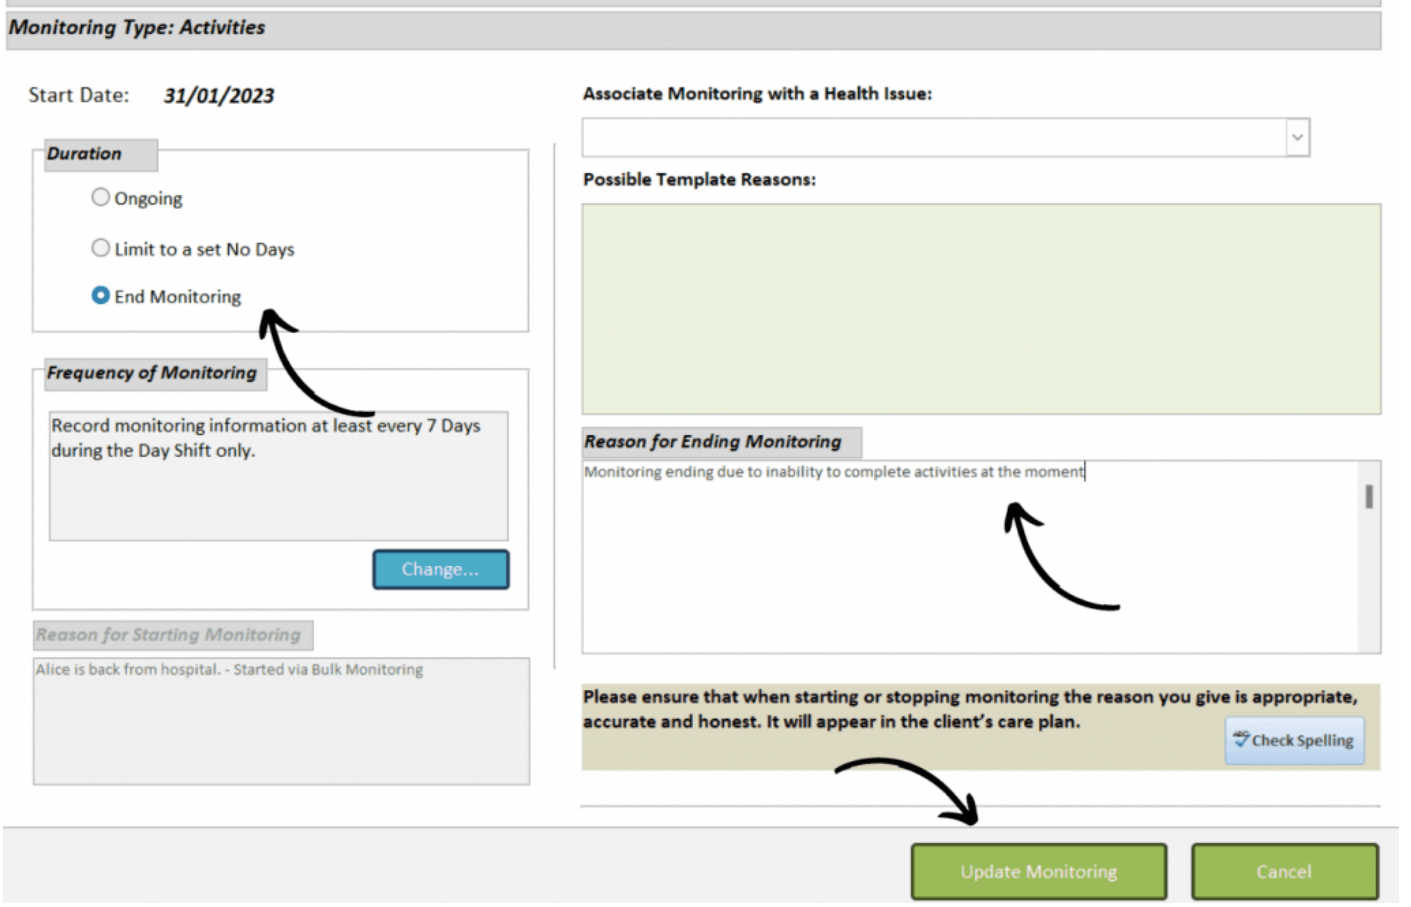
How to Add / Remove Monitoring



1

In the Administration of Care Control Windows, open the **Manage Monitoring** tool, which can be found under the **Care Planning** tab.



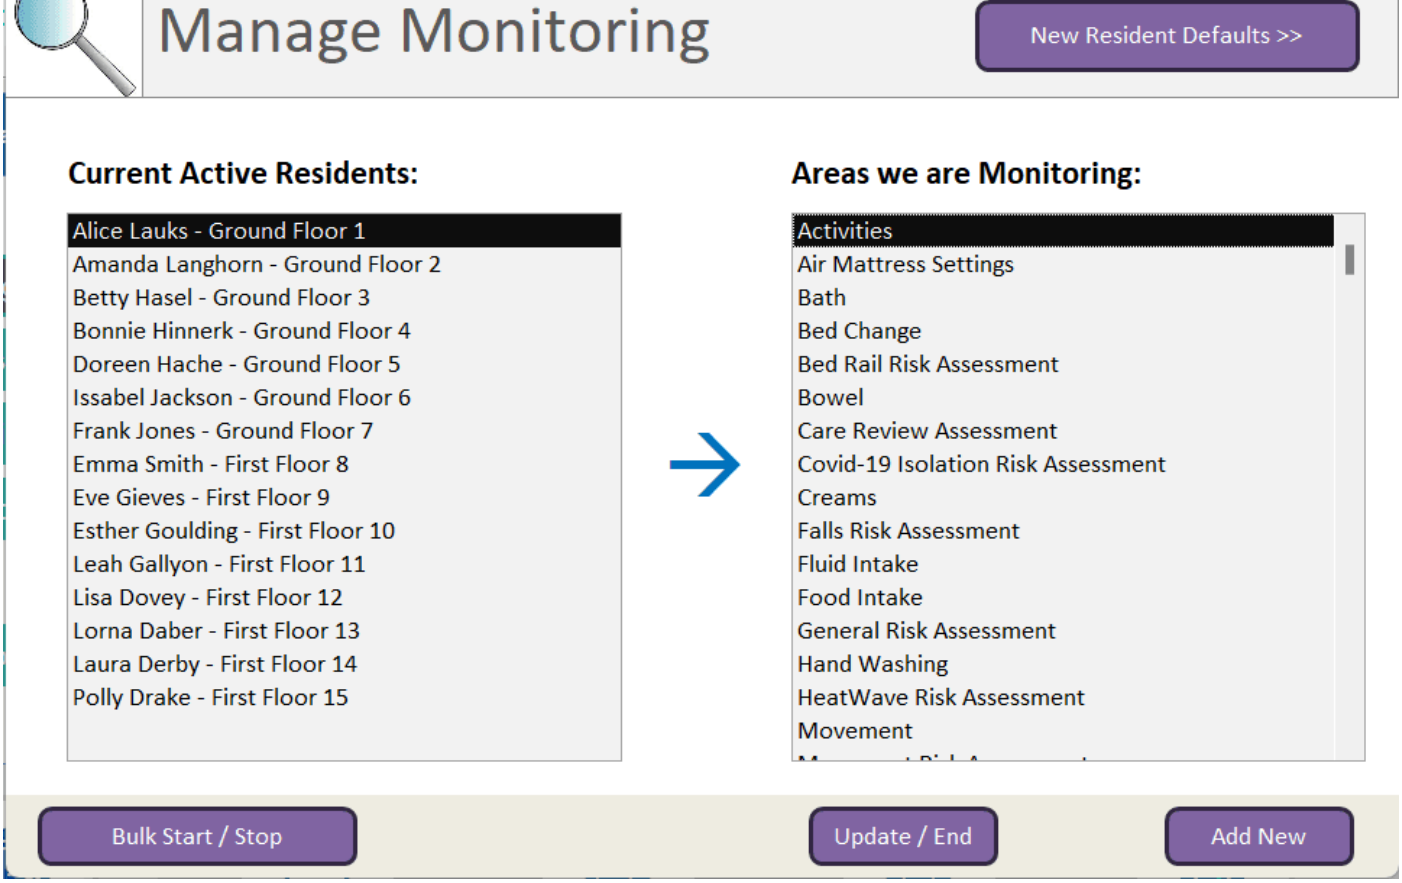


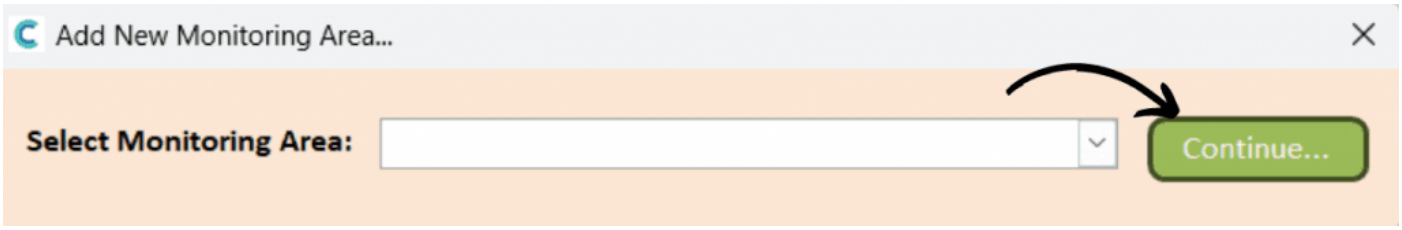
3

Tick the **End Monitoring** option and enter a **Reason** for the change. Then, press **Update Monitoring**.

4

To add monitoring, select a service user from the **Manage Monitoring** window and press **Add New**.





5

Select a new monitoring area from the drop down list and press **Continue**.

6

A new window will open. First set the **Duration** and **Frequency** of the monitoring, then, enter a **Reason** for the monitoring starting. Finally, press **Start Monitoring** to complete the process.
