Colour Blind Settings on Windows

This guide will cover how to turn on colour blind options for your Windows laptop / computer. This could make your viewing experience better on the Care Control Apps.

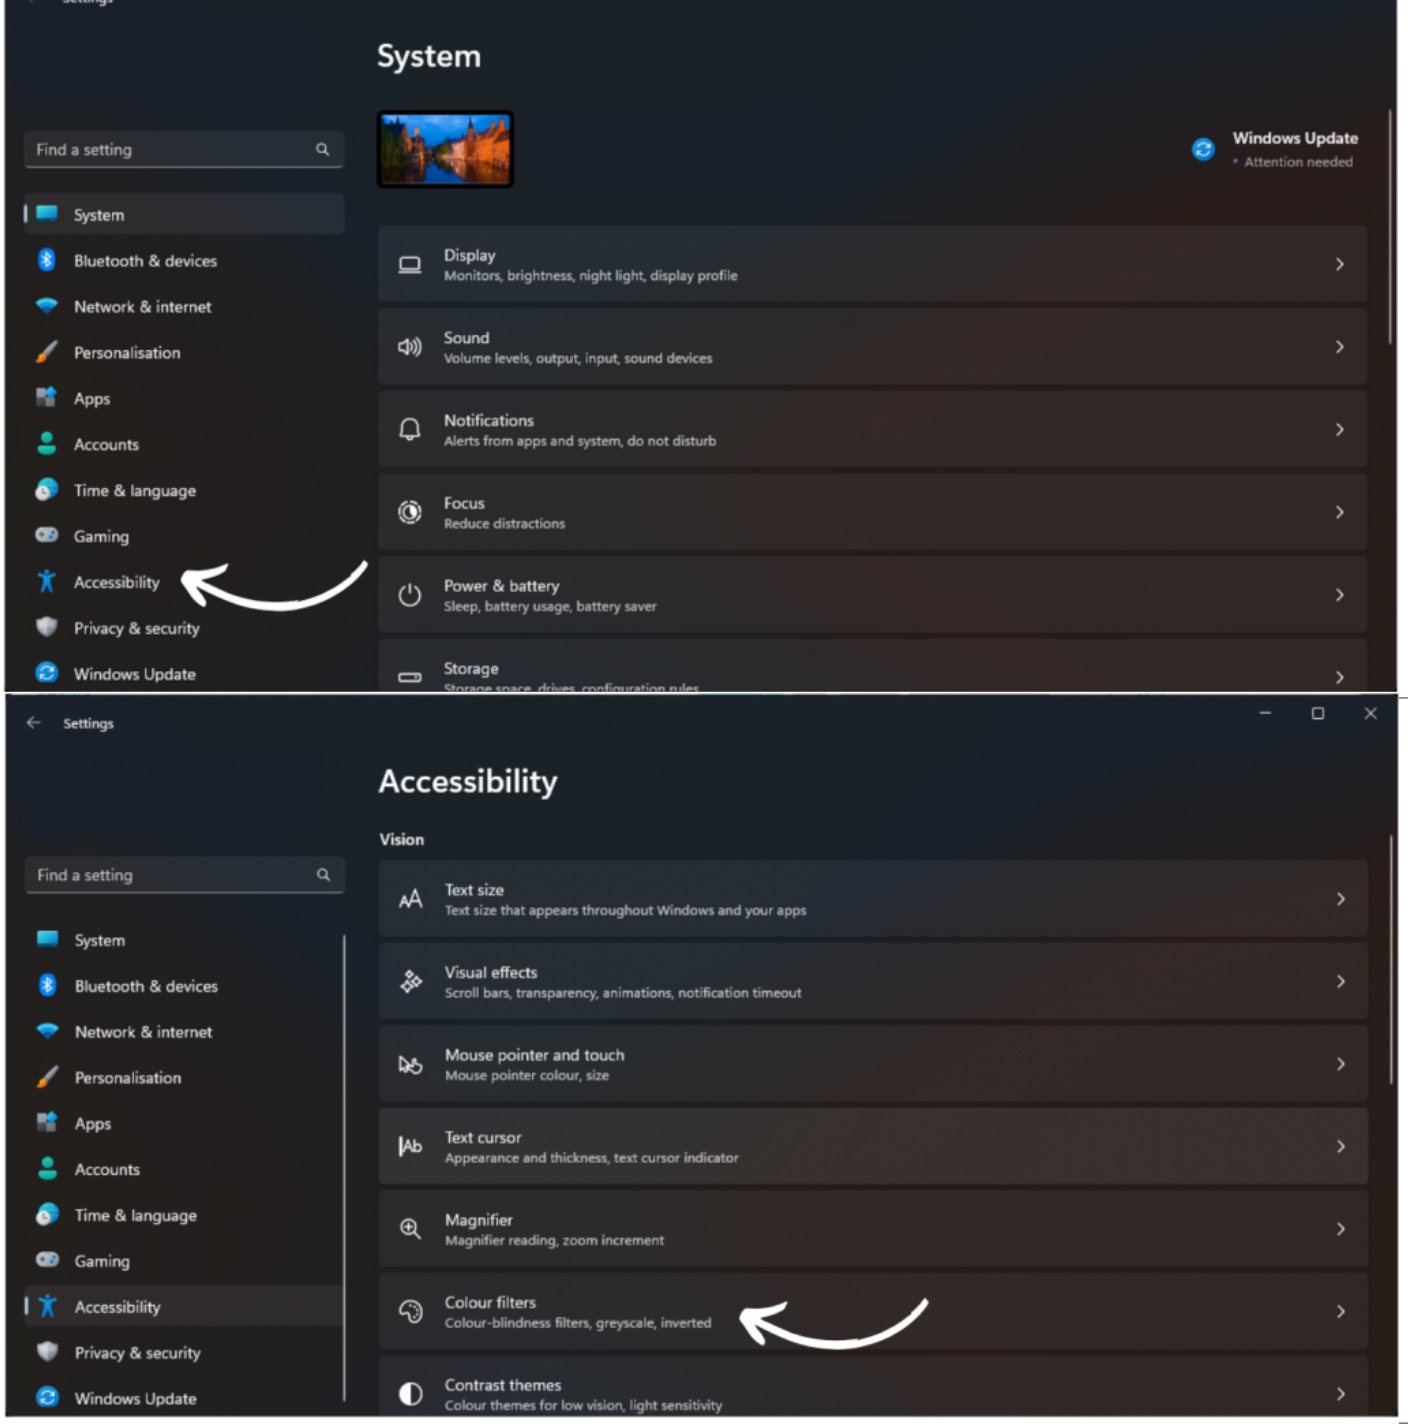

1

Find and open your devices **Settings**.

2

From the options on the left hand side, select **Accessibility**.

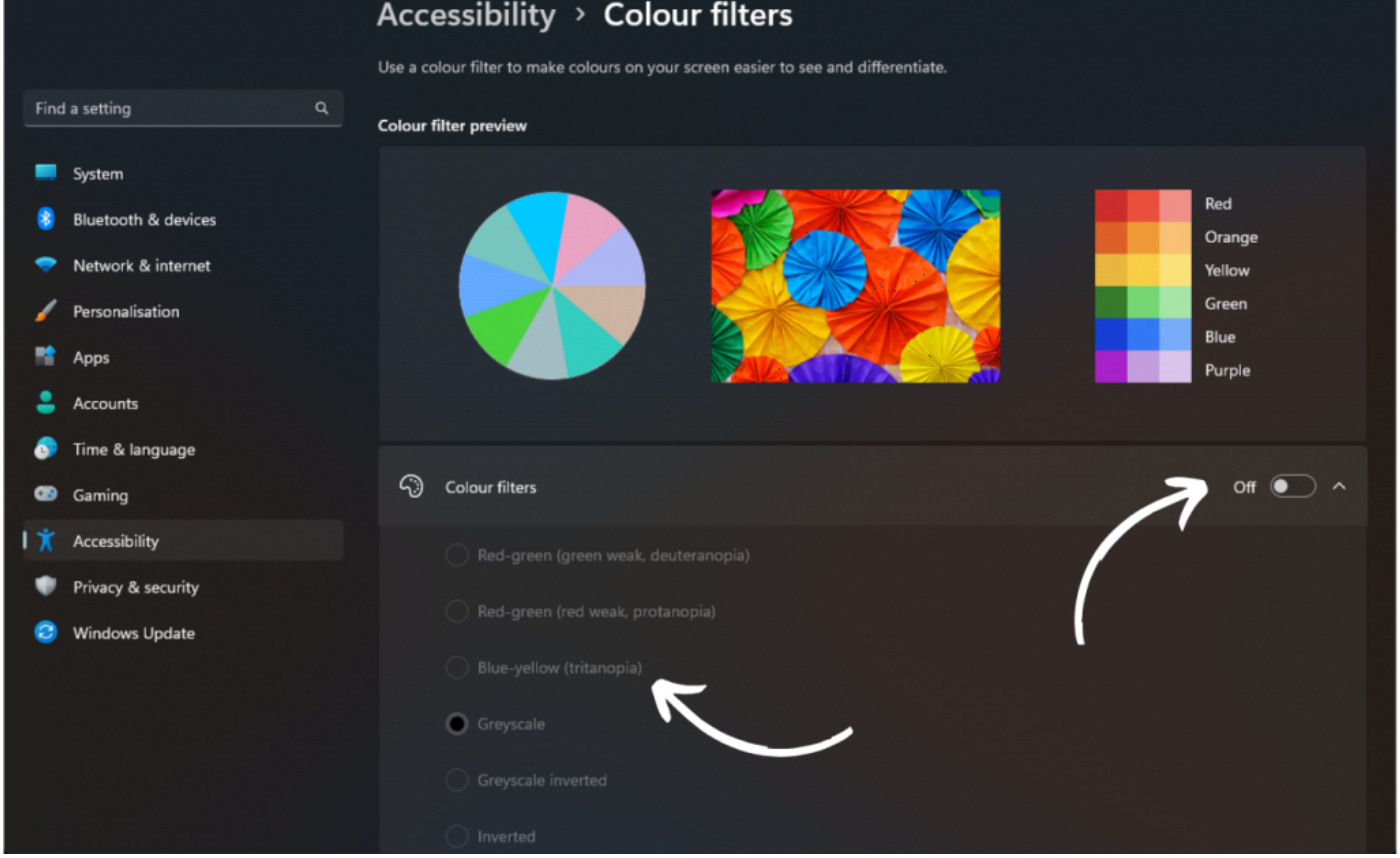

3

Here, choose **Colour Filters**.

4

To access the different colour filter options, you will first need to toggle the switch to **On**, then, choose a filter from the list below.

Accessibility › Colour filters
Use a colour filter to make colours on your screen easier to see and differentiate.
