COVID PPE Check

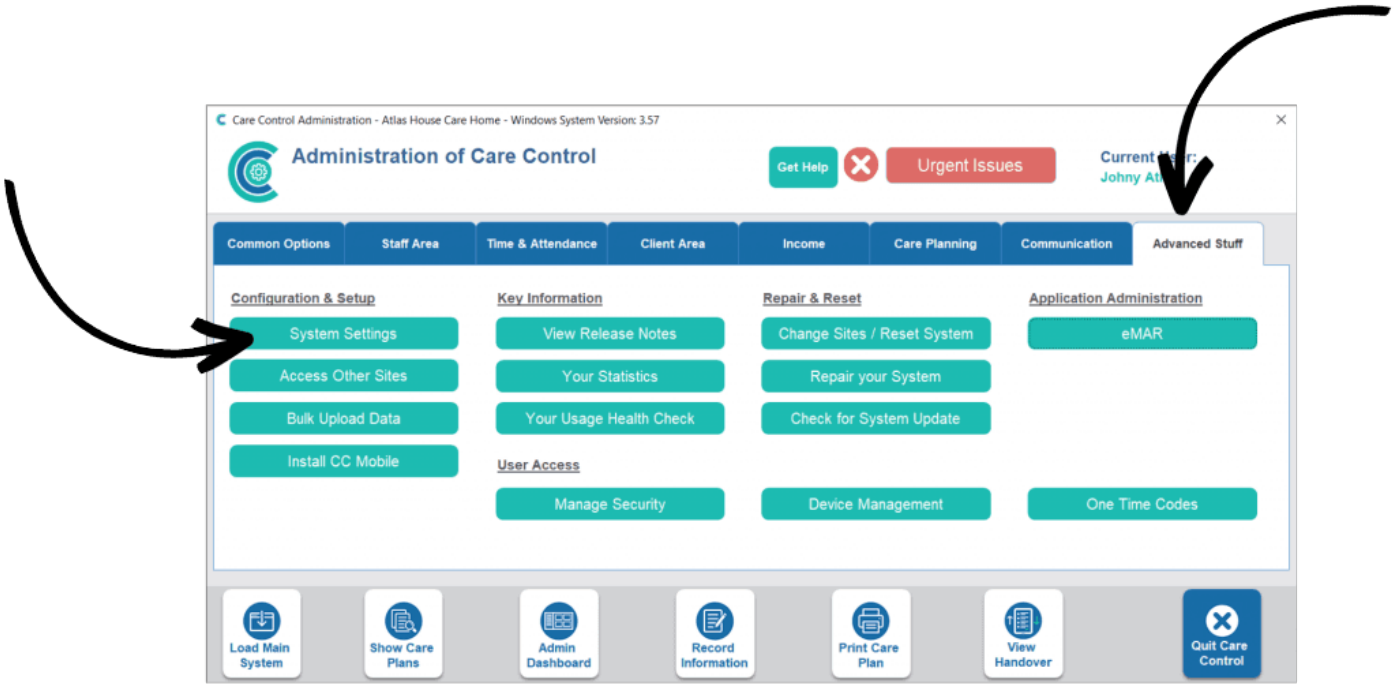

COVID Windows · https://cclearninghub.co.uk/docs/covid-ppe-check/

COVID PPE Check

This guide will cover how to enable COVID PPE checks for staff members when they sign in.

When enabled, staff will be required to complete a form when checking into Care Control Pocket.

1

In the **Administration of Care Control Windows**, navigate to the **System Settings**, which can be found in the **Advanced Stuff** tab.

2

A new window will open. Here, select **CC Pocket Settings** from the menu on the left-hand side of the screen. Next, find the option titled **Force COVID PPE Check** on Check In and set this to **Yes**. Finally, press **Save Changes**.

Setting Details
Enable Check In and Check Out Facility: No
Time Gap for Late Check In or early Check Outs: 15 in minutes
If the CC Pocket Home Page is set to Staff Rota and Check In's are enabled, the Pocket Device will force Check In and Check Out for any visits that are taking place on that day.
Use NFC Tags on Check In / Check Out: Yes - but can bypass
If you set the NFC Tag setting to Yes - No Bypass - the user will not be able to record anything for that client until they scan a matching NFC Tag. There is no way to bypass this for the user.
Force COVID PPE Check on Check In: No
This form is only showed if Check In is enabled. If the Staff Member answered No to "Wearing a Mask", Pocket will force the staff member to check out.
Override Password: CareControl
Support CSG Filtering: No
NFC Tags / QR Code Treatment for Care: QR Codes
Service User Summary Default: Task View
Service Status / Home Status Behaviour: Launches Edit Screens
Offline Working

3

Now, when a staff member checks in to a visit, they will be presented with a form regarding PPE.

They must fill out all the sections to continue.
