Creating and Adding Instances to a Group

This guide will cover how to create Instances and assign them to Groups on the Screens Controller application.

1

After signing into CC Screens Controller, select **Group Management**.

2

Select the group you wish to add instances to. Simply tap the **Group Name**.

3

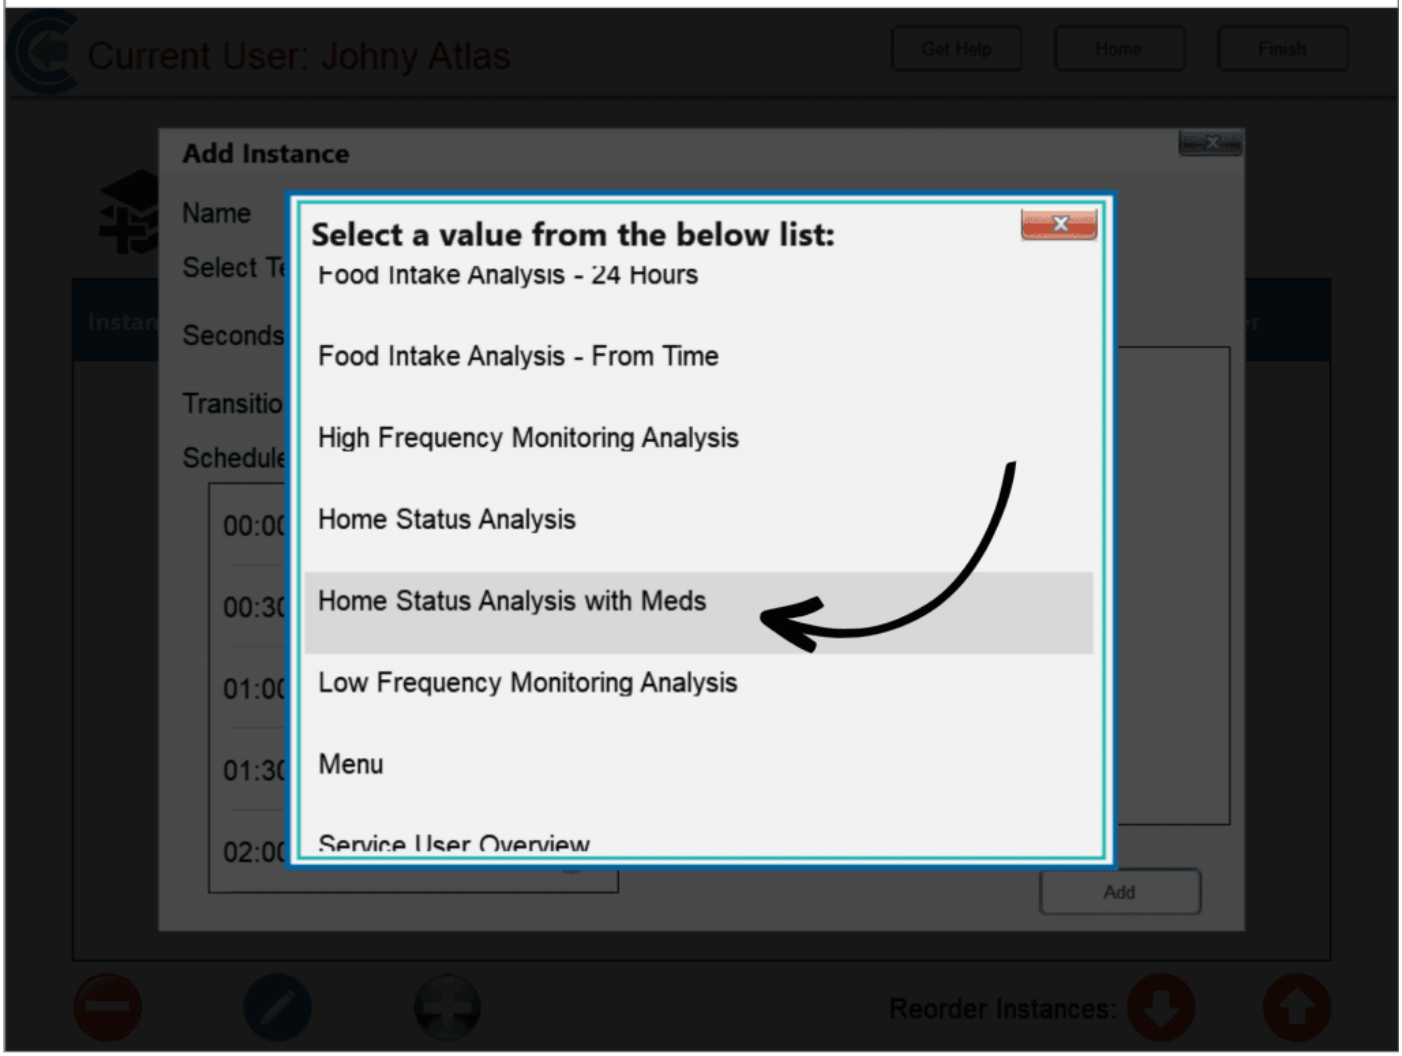

A new window will open. Here, you can add, edit or remove instances from the group. To add a new one, press the **Green +** symbol.

4

Enter a name for the instance, as well a time for the instance (seconds to show). You can also select schedule options for which times of the day this instance will be shown. By default, all times

are selected.

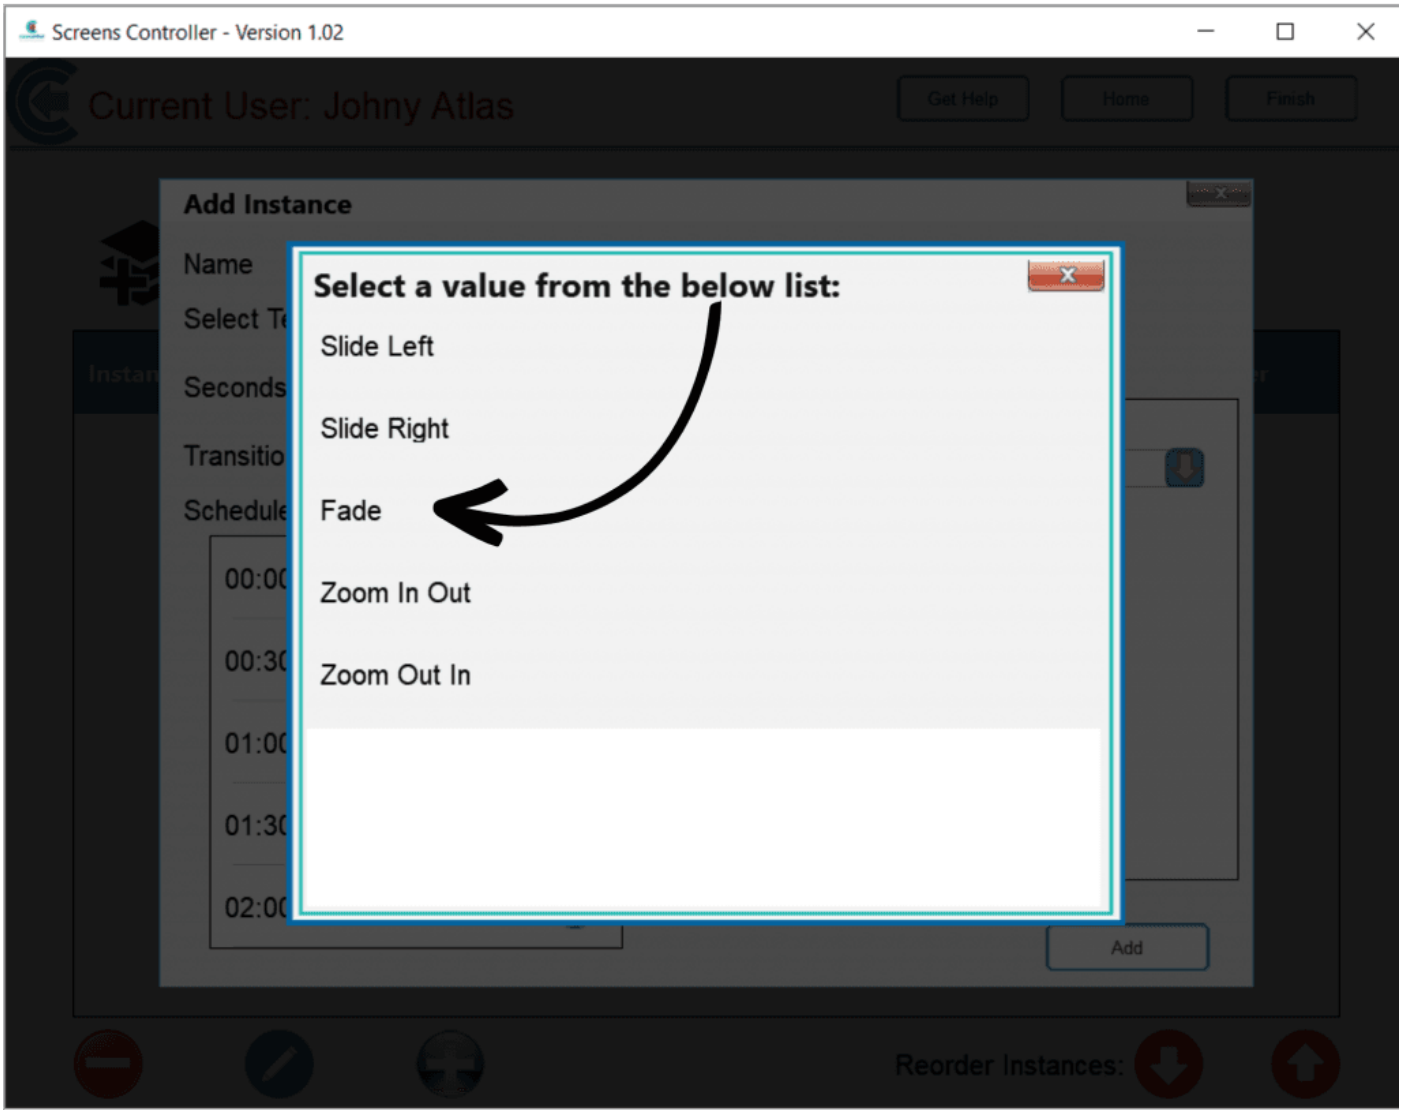

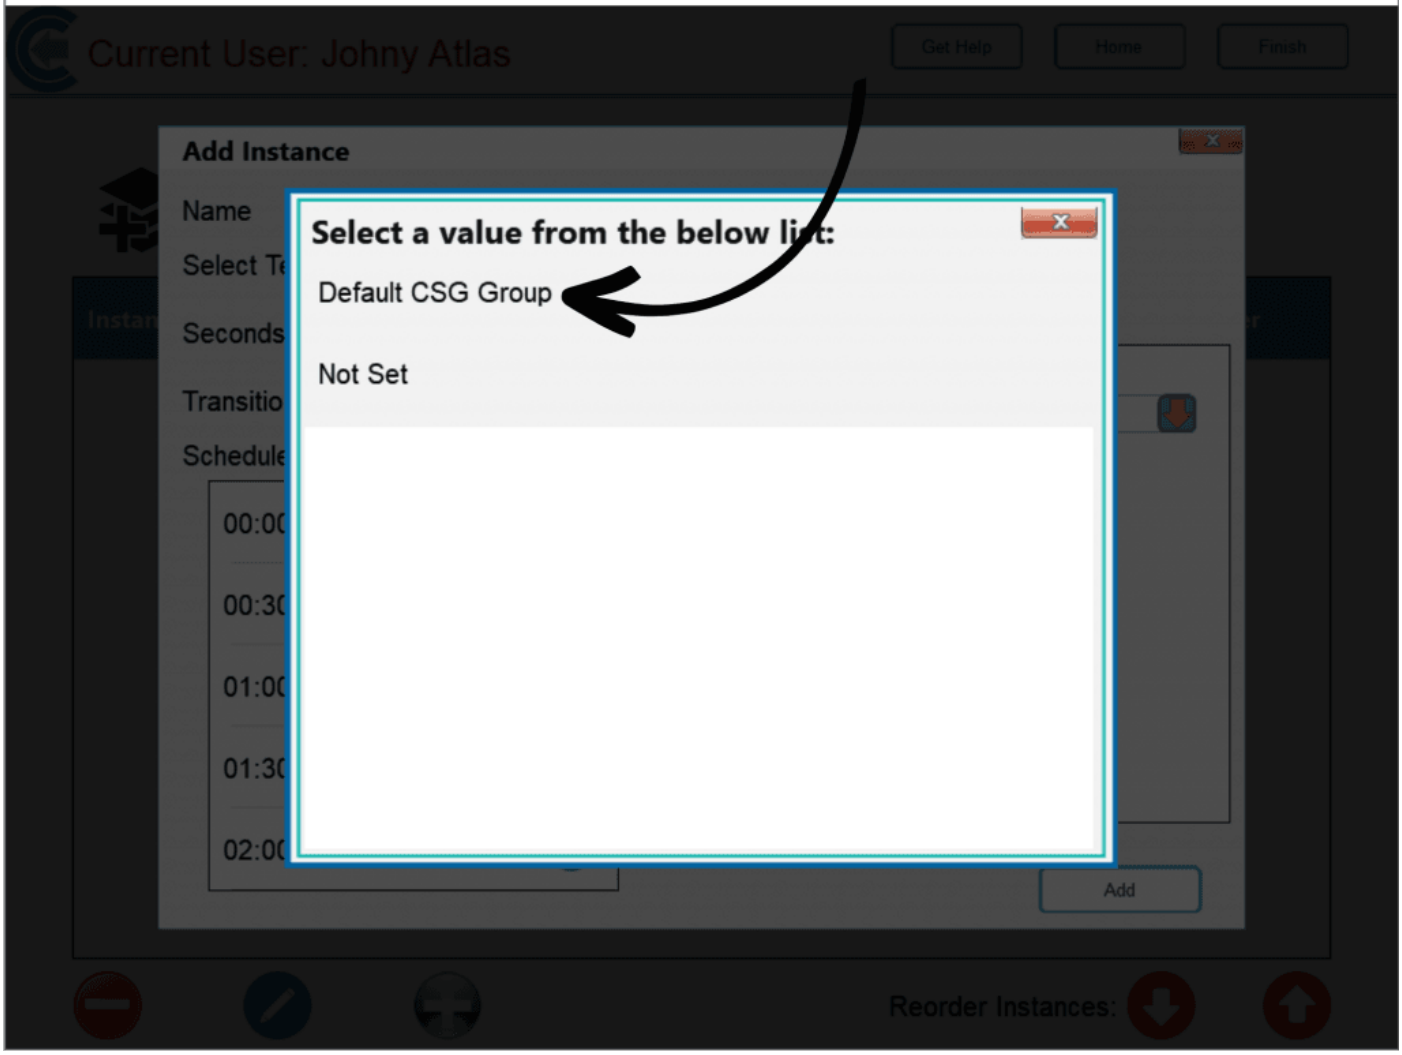

5

In this example, we will select **Home Status Analysis with Meds.**

6

Next, select a **Transition**. In this example, we will choose **Fade**.

7

Finally, select a CSG to show information for. In this example, we will choose **Default CSG Group**.

After setting up the instance, press **Add**.

8

Your new instance will be displayed in the group.
