Installing CC Mobile on Windows

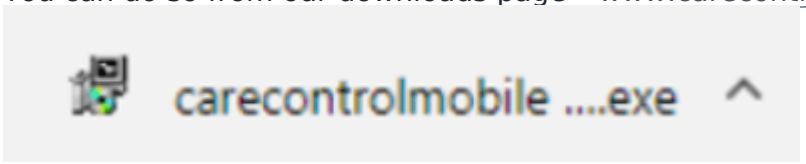
This guide will cover how to install Care Control Mobile on a Windows laptop or computer. This guide can also be followed for installing CC eMAR, Pocket or other CC applications on Windows. You can do so from our downloads page – www.carecontrolsystems.co.uk/downloads



1

To install Care Control Mobile on a Windows PC you will need to open the link below – You can either click on it, or copy and paste it into your internet browser:

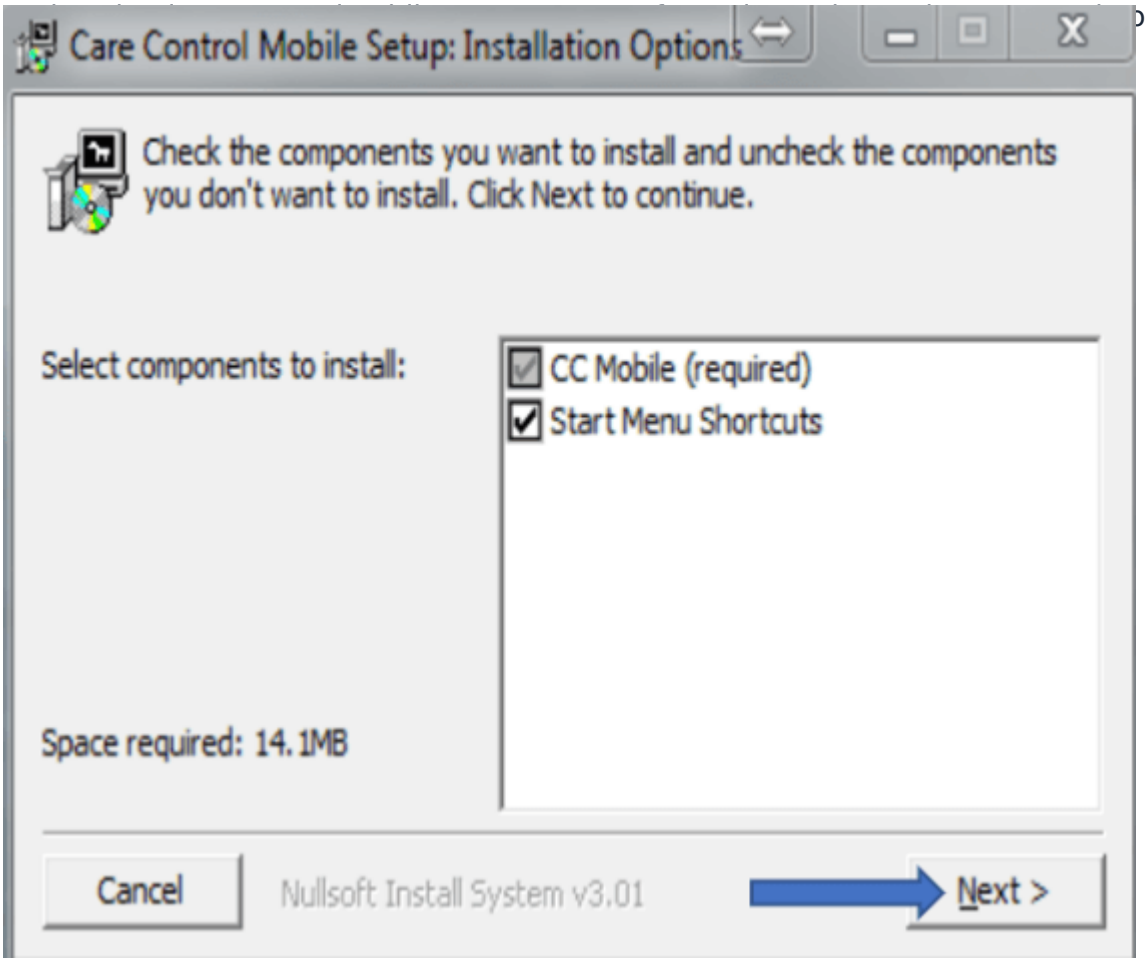
http://secure.carecontrolsystems.co.uk/downloads/carecontrolmobile.exe

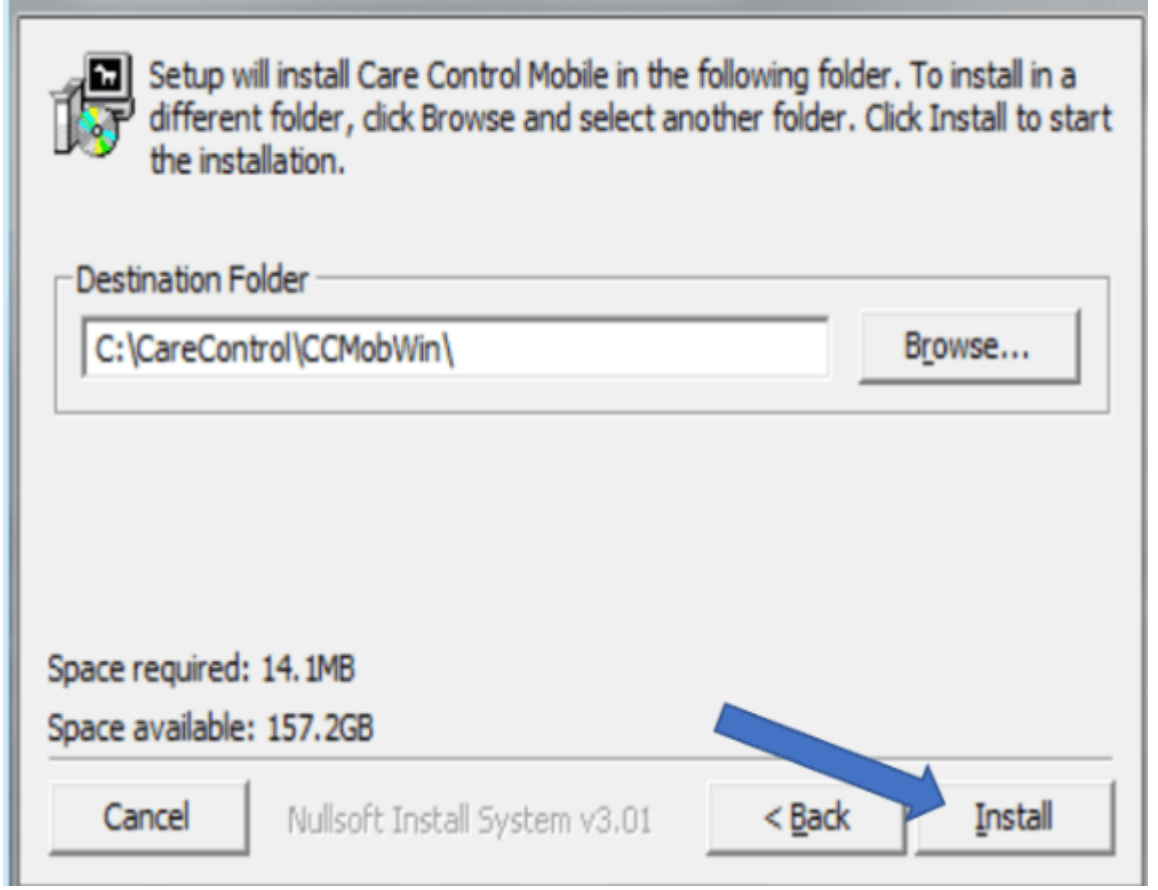
This will start a download, usually in the bottom left of your screen. If given the option, select **Run**, but depending on your PC you may have to select **Save** instead.

Once the download is complete, click on **carecontrolmobile** to open the installation wizard:

2

At this stage, you may need to enter an administration password to confirm you have permission



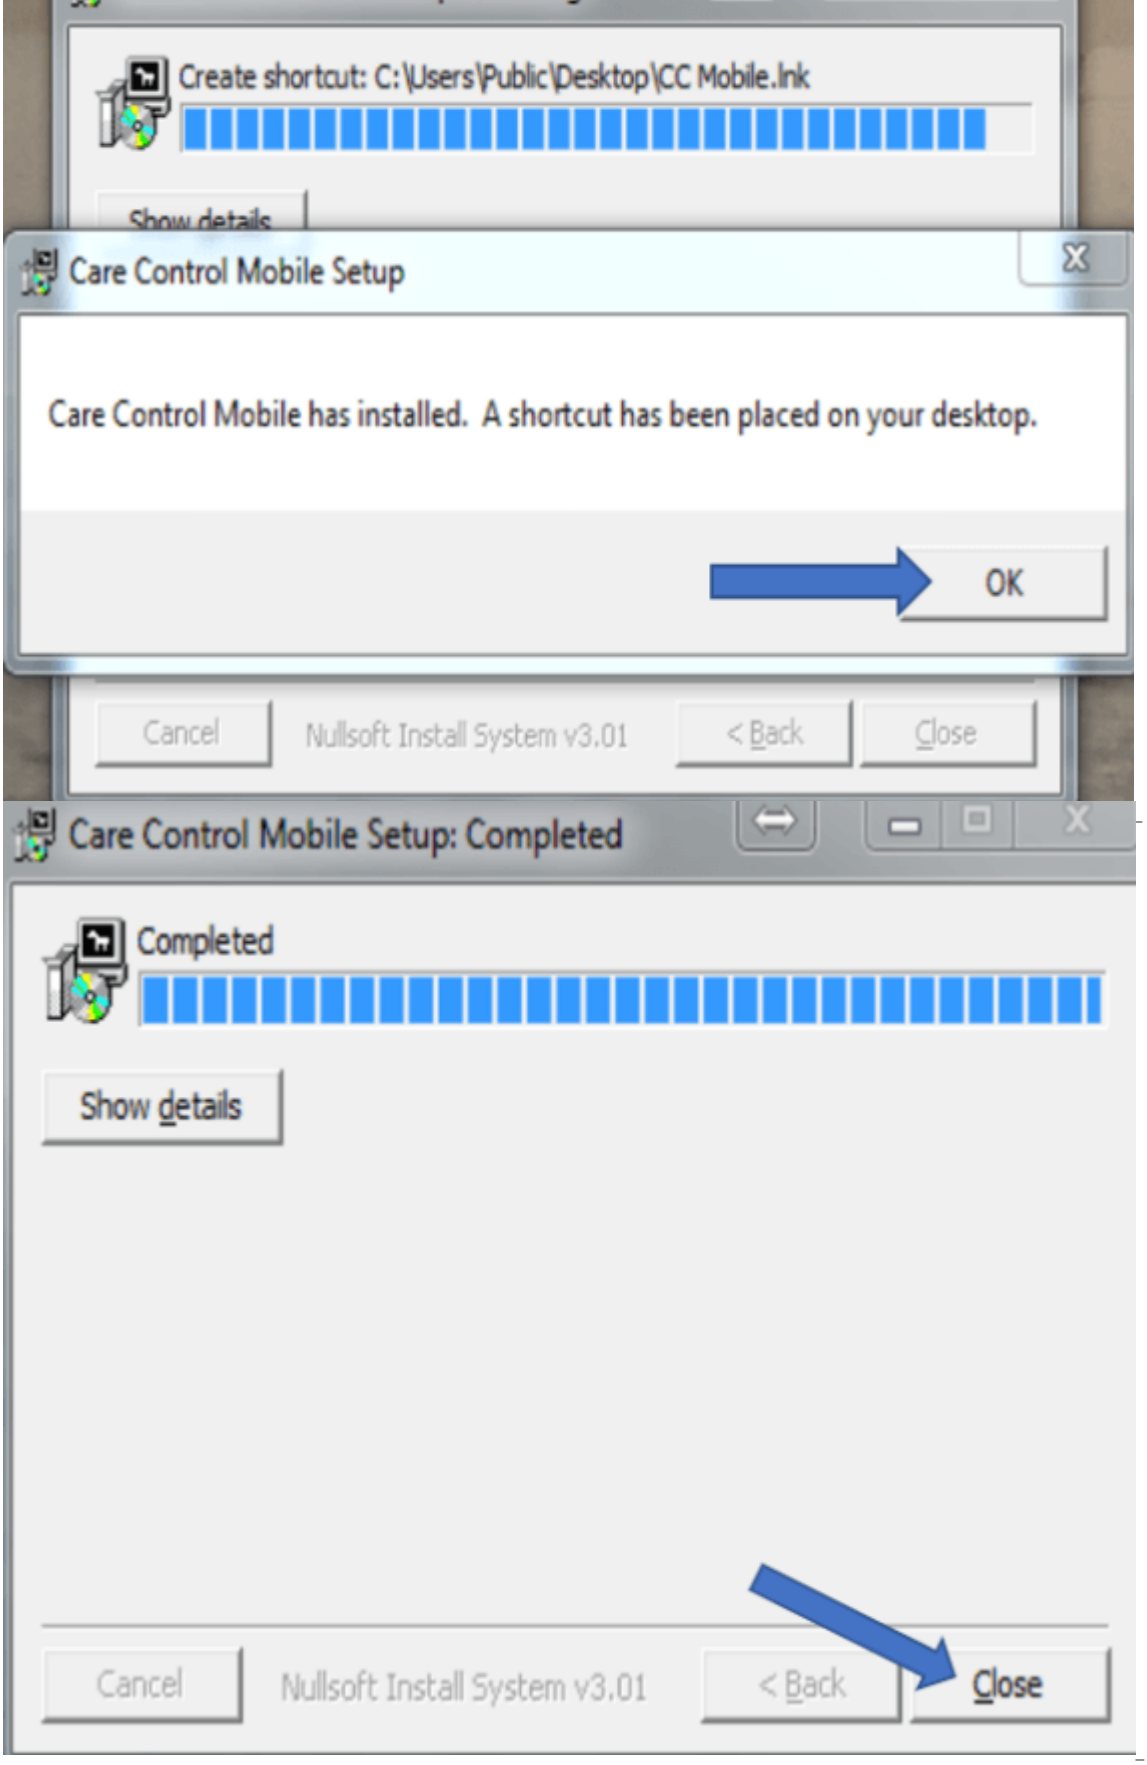


3

Click **Install**.

4

Click **Ok**.



Create shortcut: C:\Users\Public\Desktop\CC Mobile.lnk
