Recreating a Risk Assessment

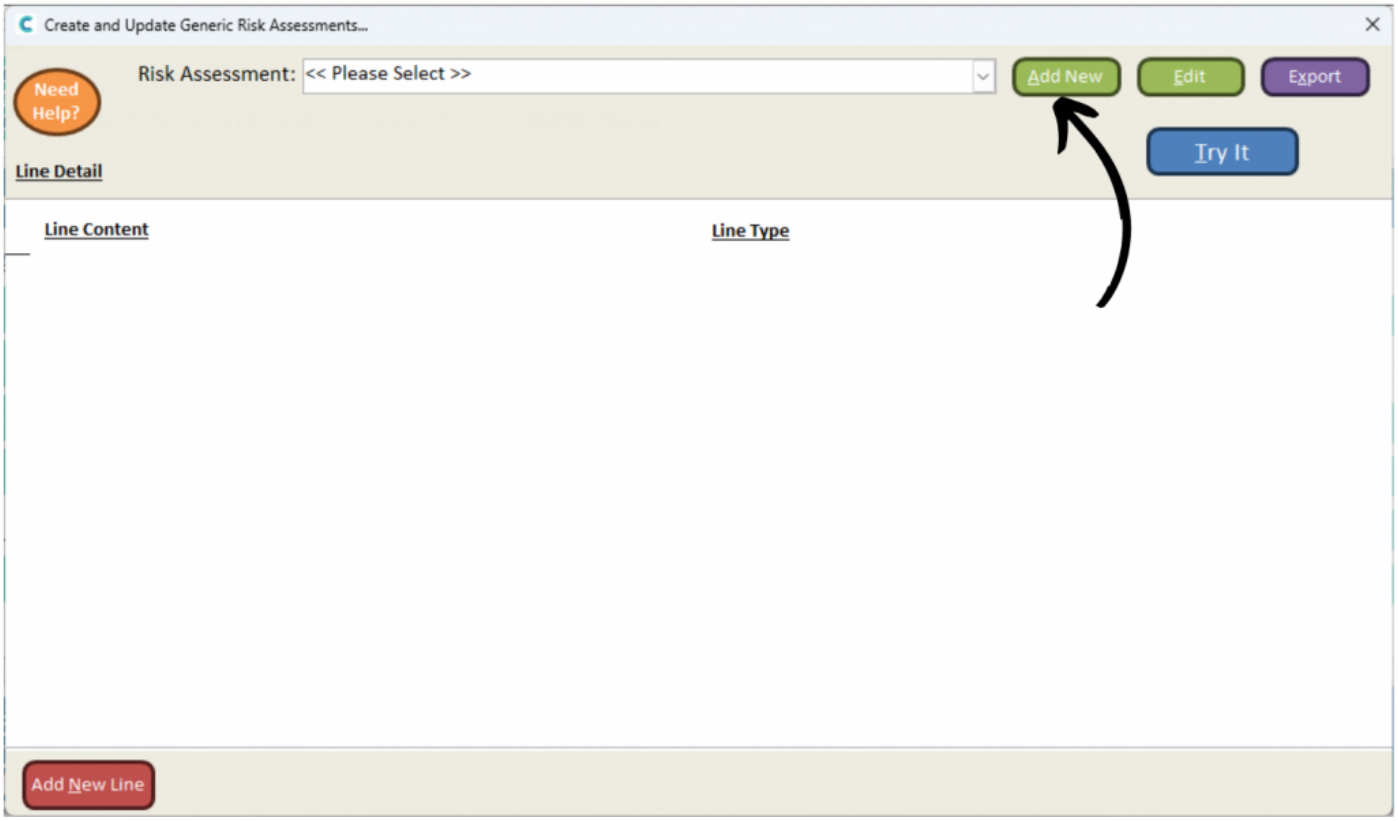
1

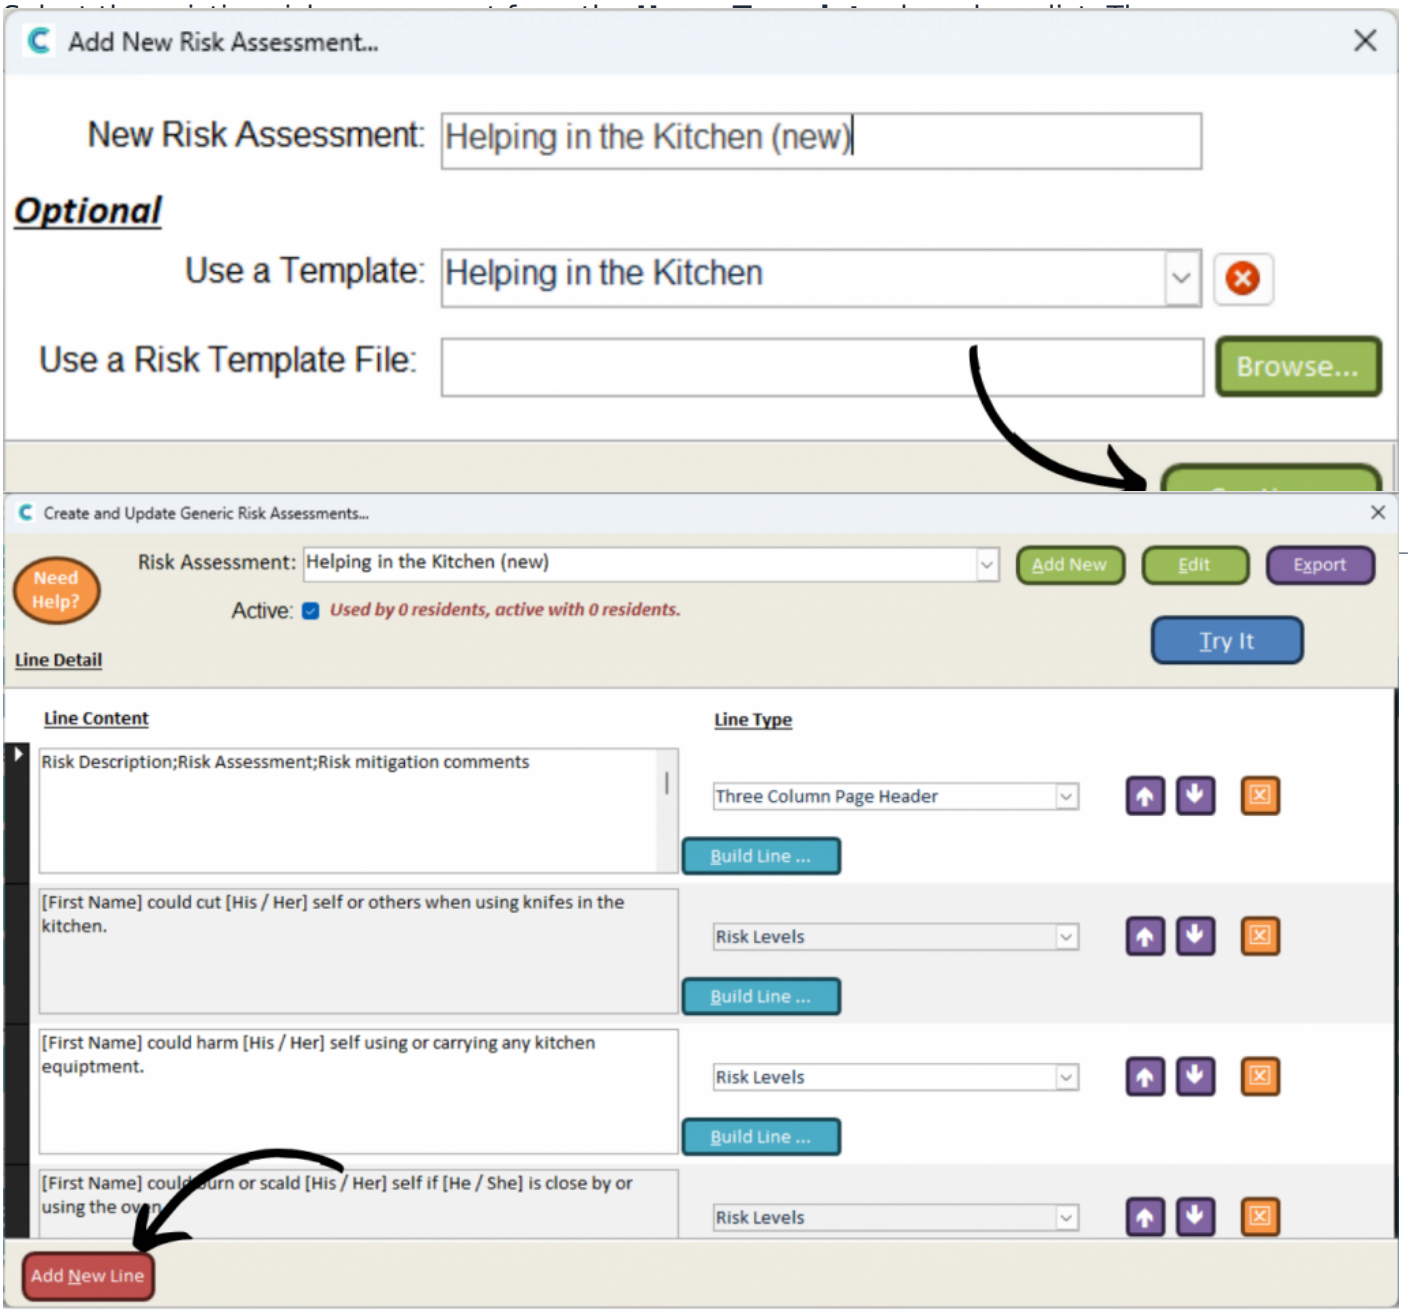
In the Administration of Care Control Windows, navigate to the **Generic Risk Assessments** tool, which can be found under the Care Planning tab.



3

Enter a name for your new risk assessment. Please note, if recreating a risk assessment, you might want to alter the name slightly so that it is not the same as the existing one.

4



5

The risk assessment will be created based on the template.

You can now amend any of the existing parts or add new sections via the **Add New Line** button.
