Viewing MAR Charts

Care Control eMAR · https://cclearninghub.co.uk/docs/viewing-mar-charts/

eMAR Viewing MAR Charts

This guide will cover viewing eMAR MAR charts.

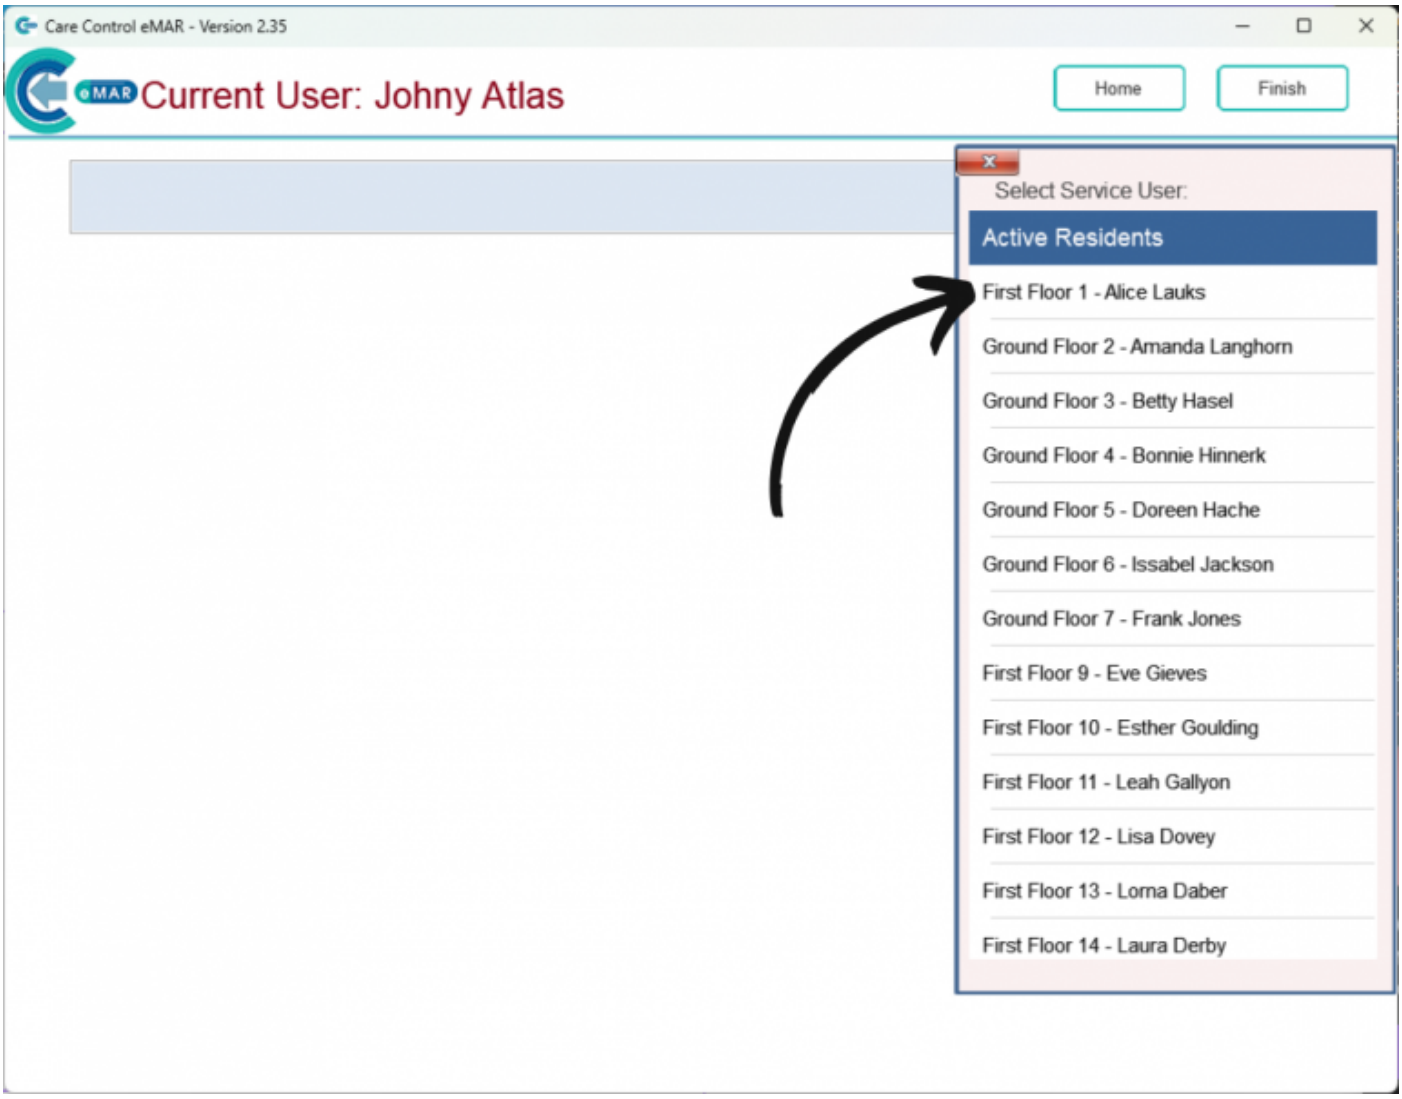
Please follow the written guide below.

Written guide

Step 1.

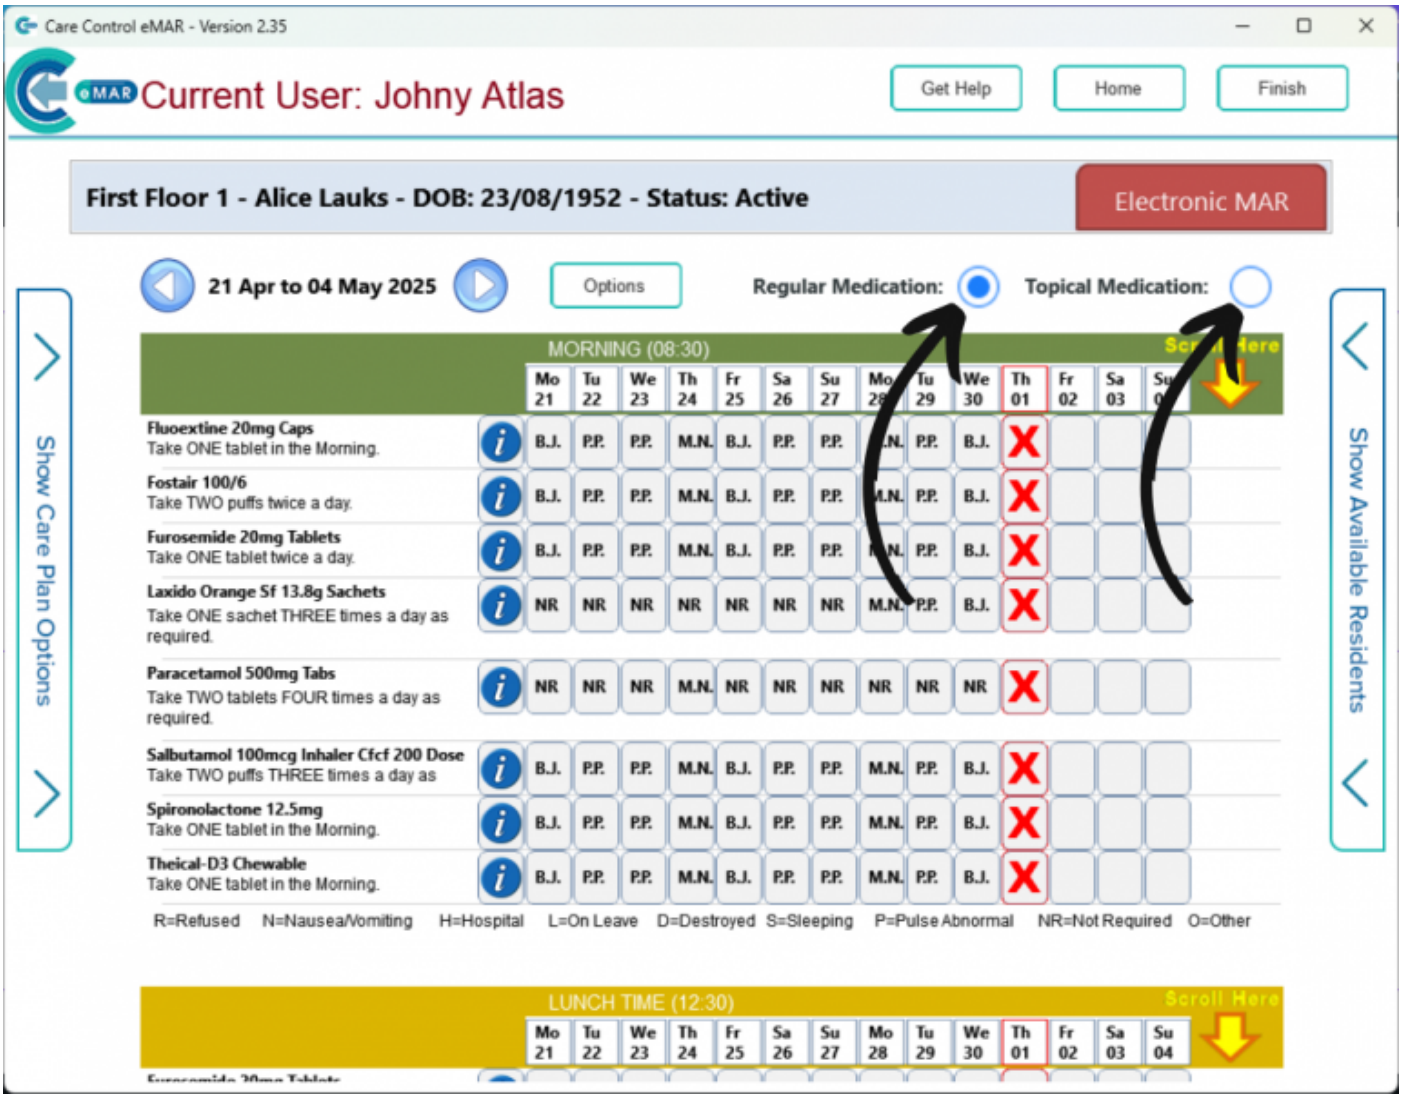
From the eMAR home screen, select Service User eMARs.

Step 2.



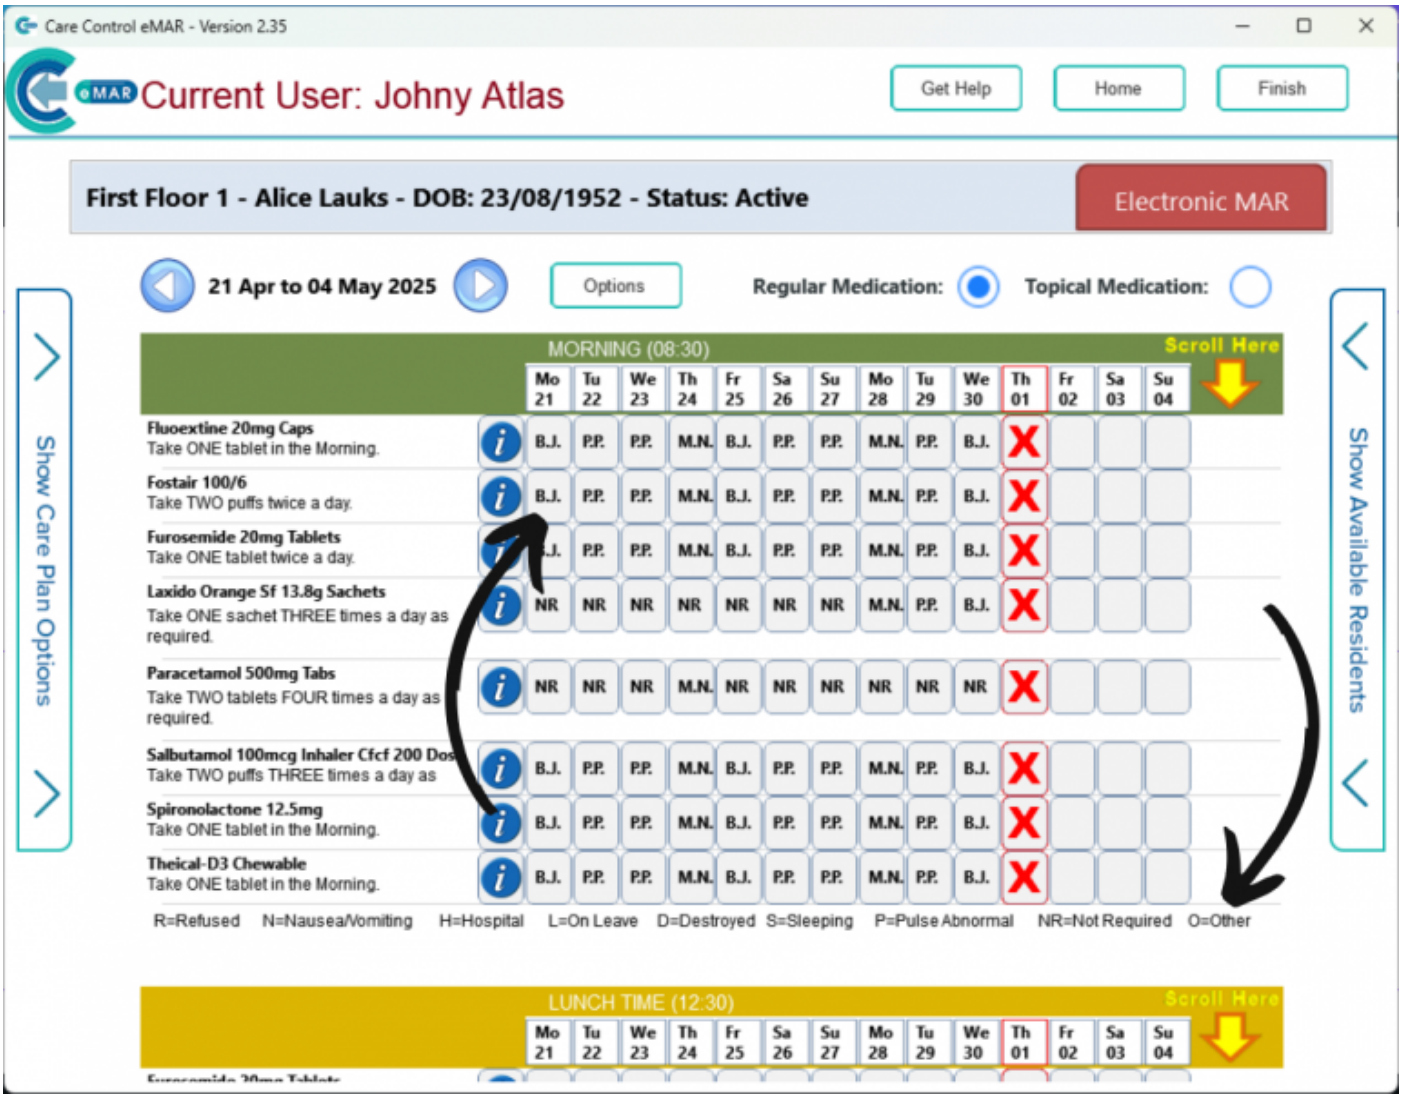
Select the resident you wish to view the MAR Chart for.

Step 3.



You can choose to view either Regular Medication or Topical Medication by selecting these boxes.

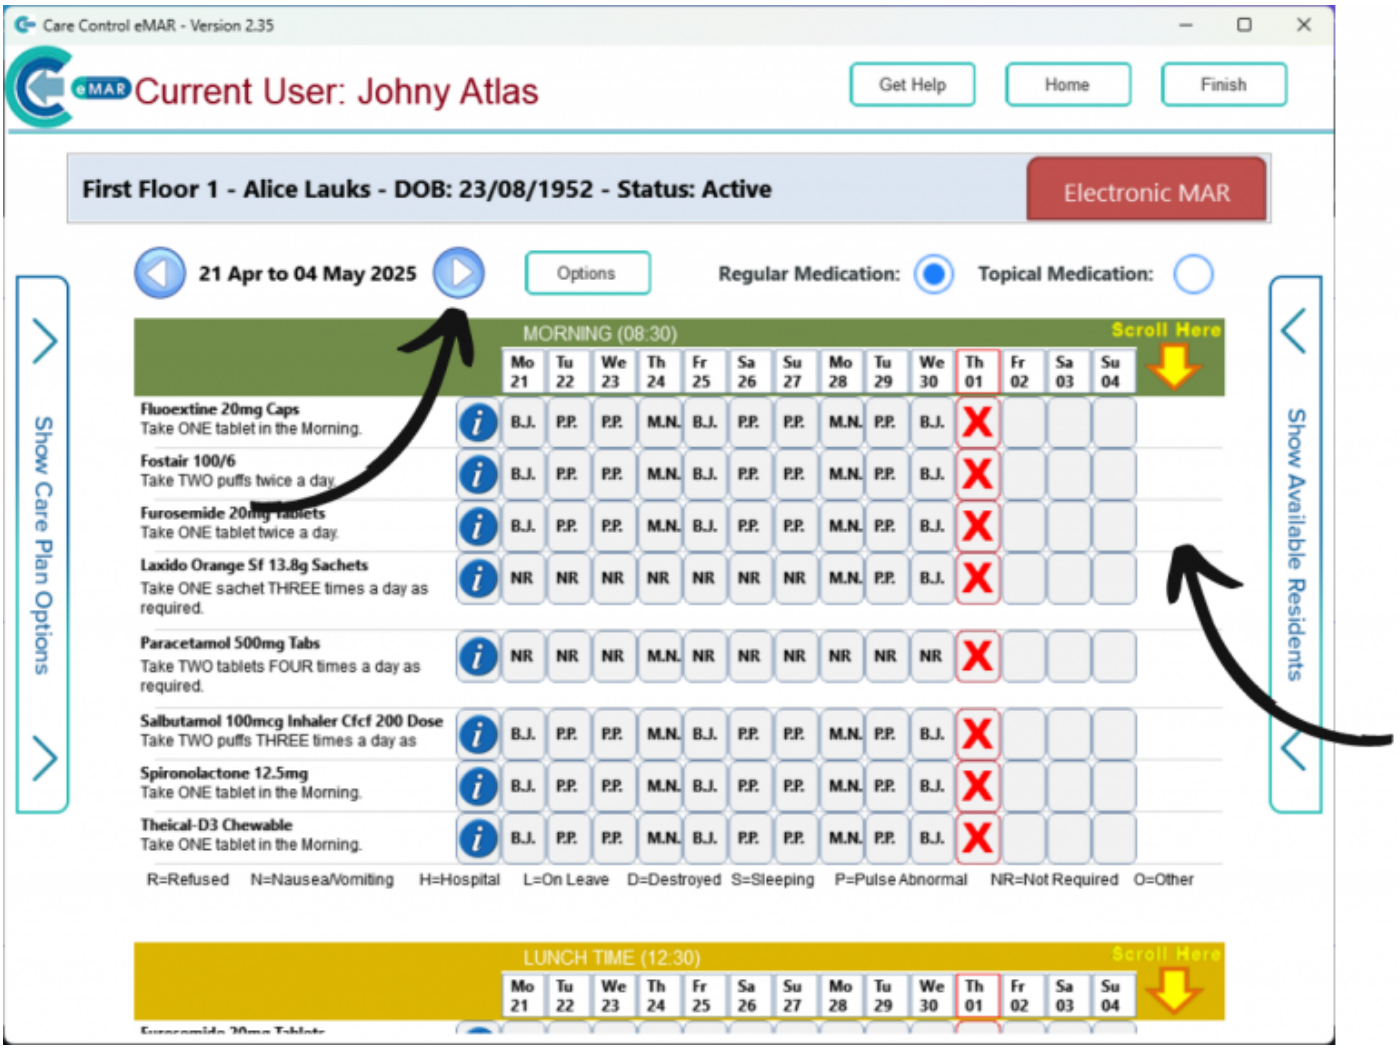
Step 4.



You can view the medication by the **day and date** which is displayed at the top of the chart. The medication will be displayed on the left hand side. In each box will be displayed some letters. If the letters have a full stop in-between and at the end that is the initials of the staff member that recorded the medication being administered.

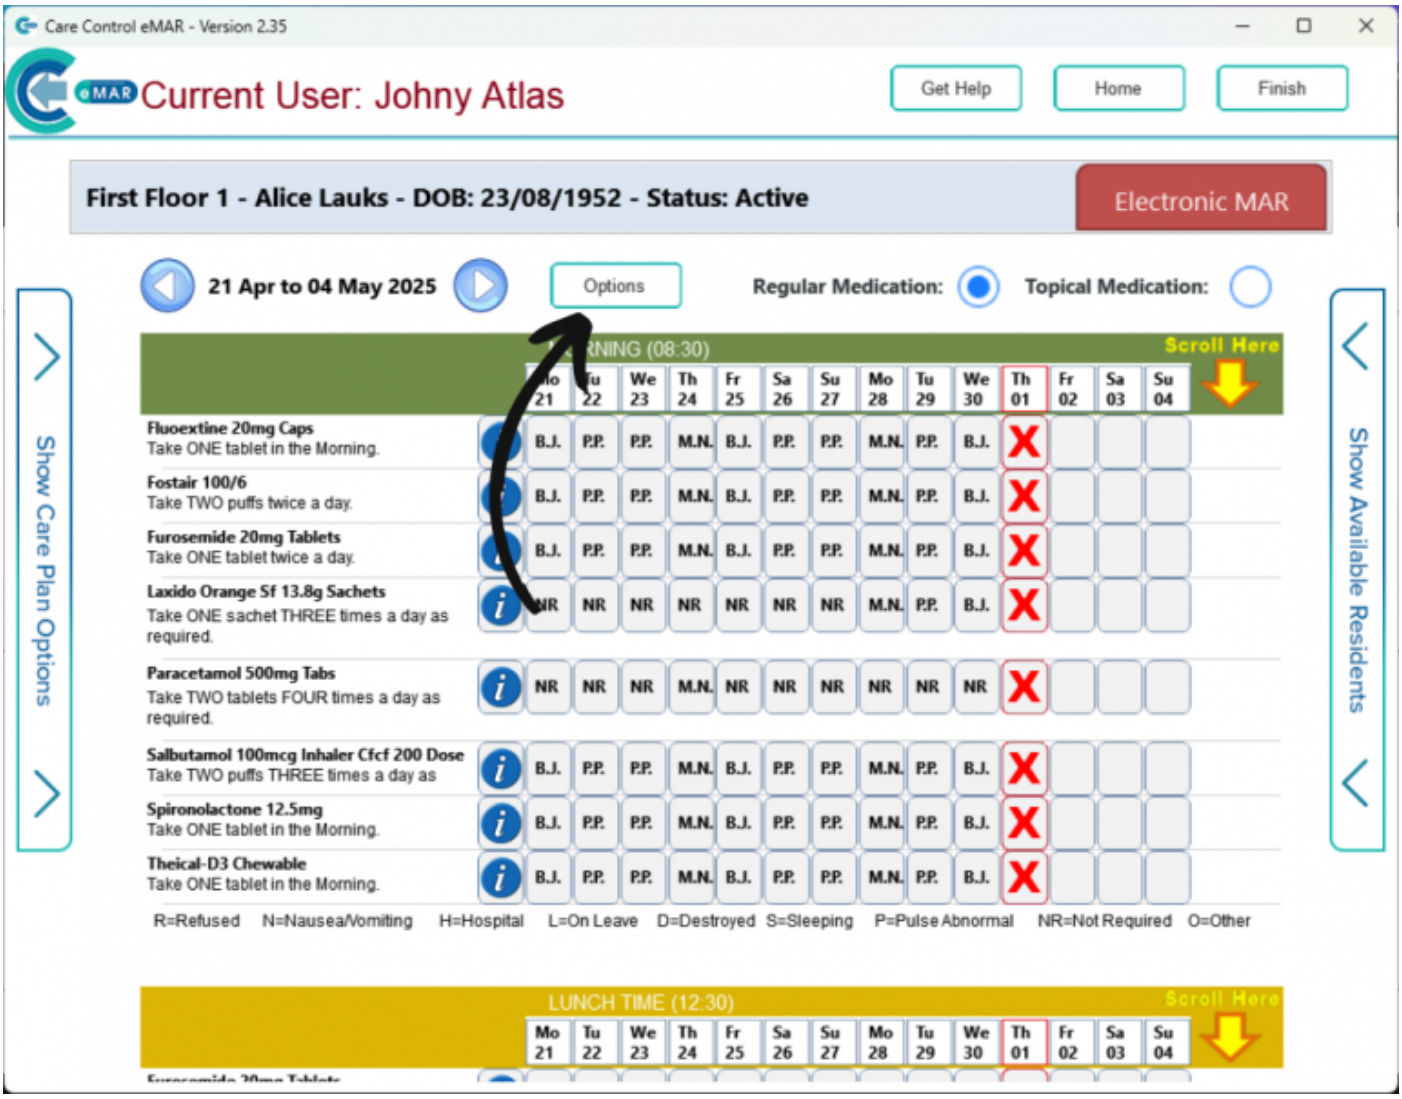
The rest of the letters are bellow and display what each one means.

Step 5.



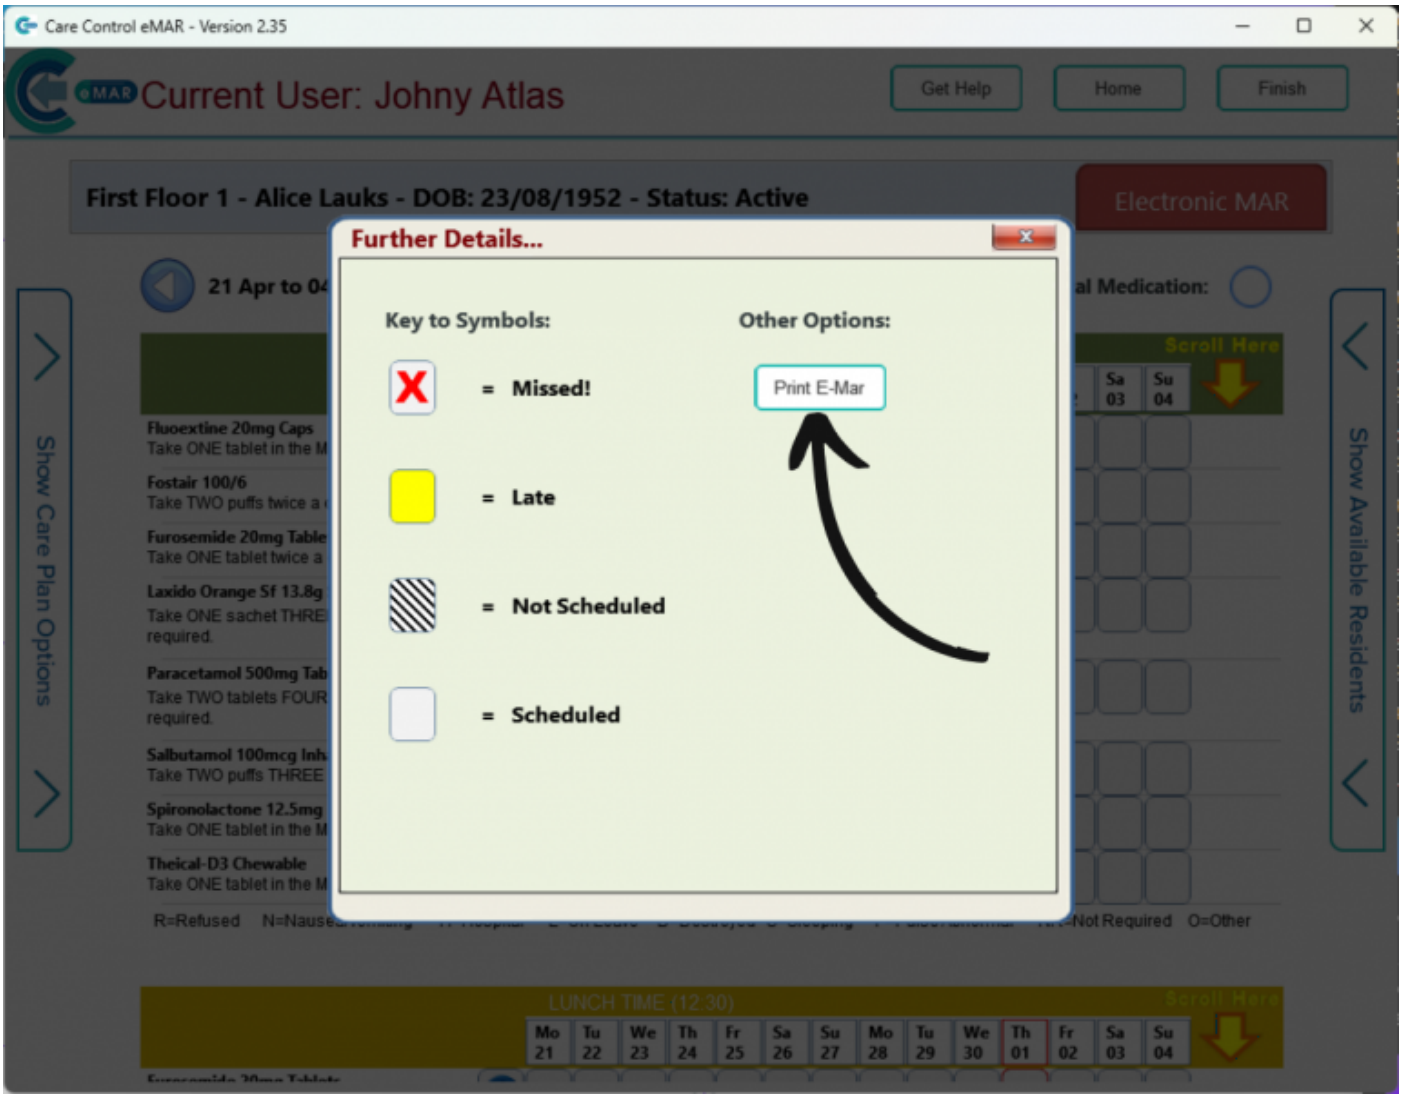
You can change the dates by **selecting the arrows** at the top left of the screen or scroll down the page to view further administration times in the **Scroll Here** area.

Step 6.



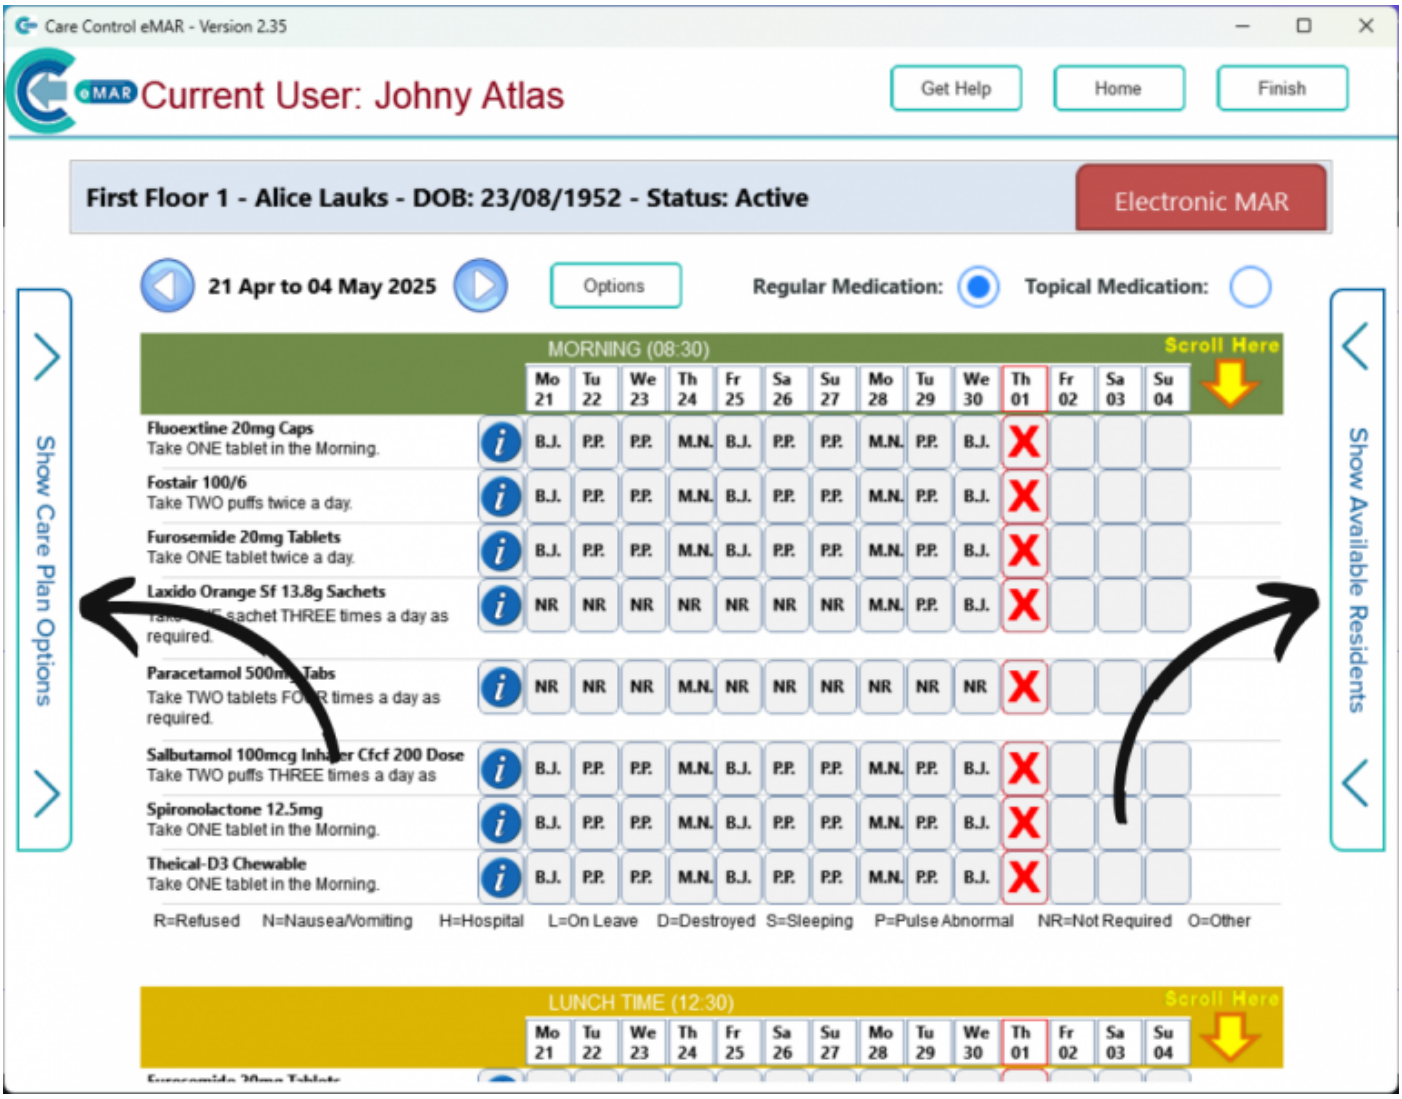
Select the **Options** button to view some further options.

Step 7.



On this page you can see the **Key to Symbols** to help understand what each symbol means. You can also print the sheet by selecting **Print E-Mar.**

Step 8.



You can select a different service users by clicking **Show Available Residents** or click **Show Care Plan Options** to view different options for the current service user.
