How to Enable or Disable Enhanced Consents

Learn how to turn on Enhanced Consents from System Settings so your organisation can use the enhanced consent management features within Care Planning.

Takes 1 minute

For: Administrators

Updated: 5th Oct 2026

Introduction

Enhanced Consents provides access to the updated consent management functionality within Care Planning.

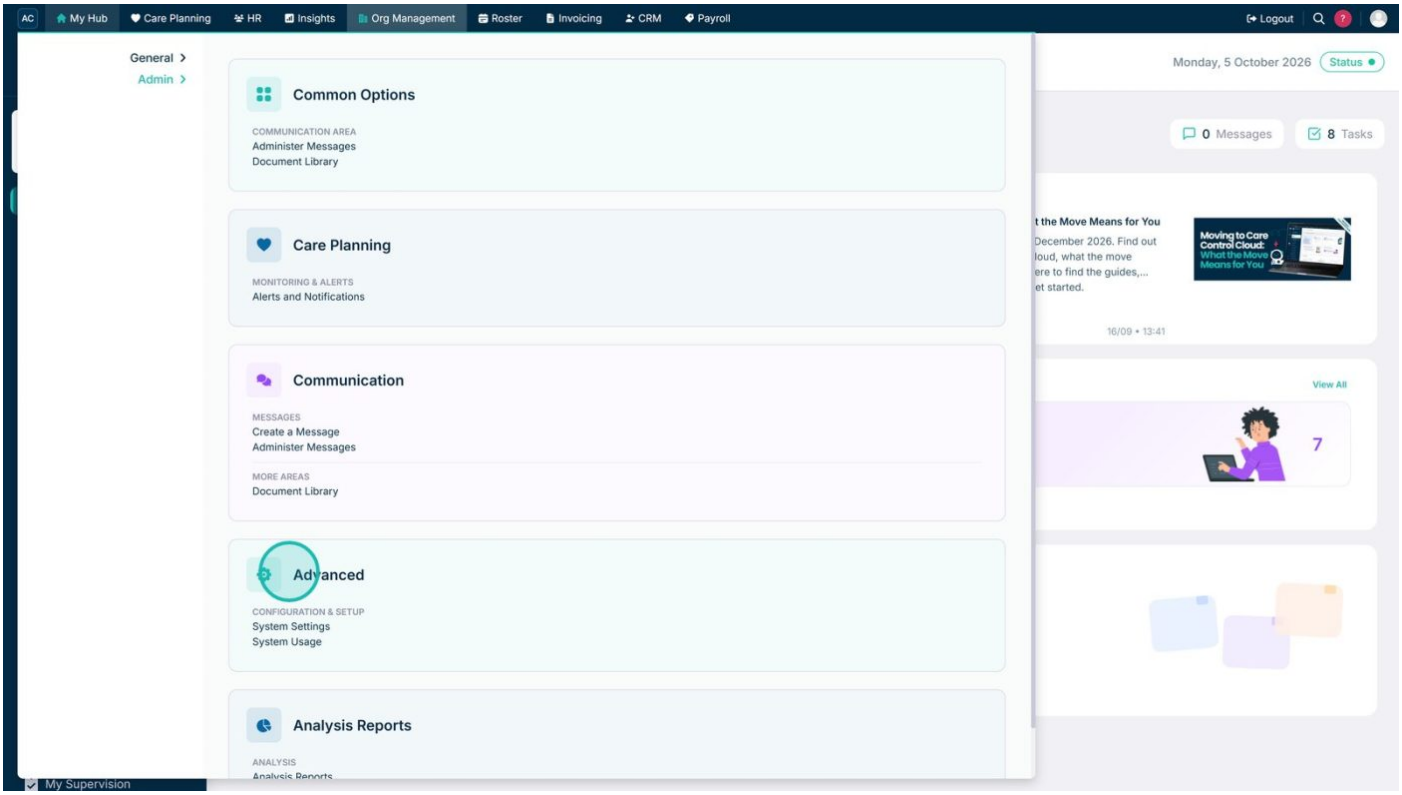

The feature is enabled from System Settings under Care Management. Once switched on, your organisation can begin using the enhanced consent process.

In this guide you'll learn how to:

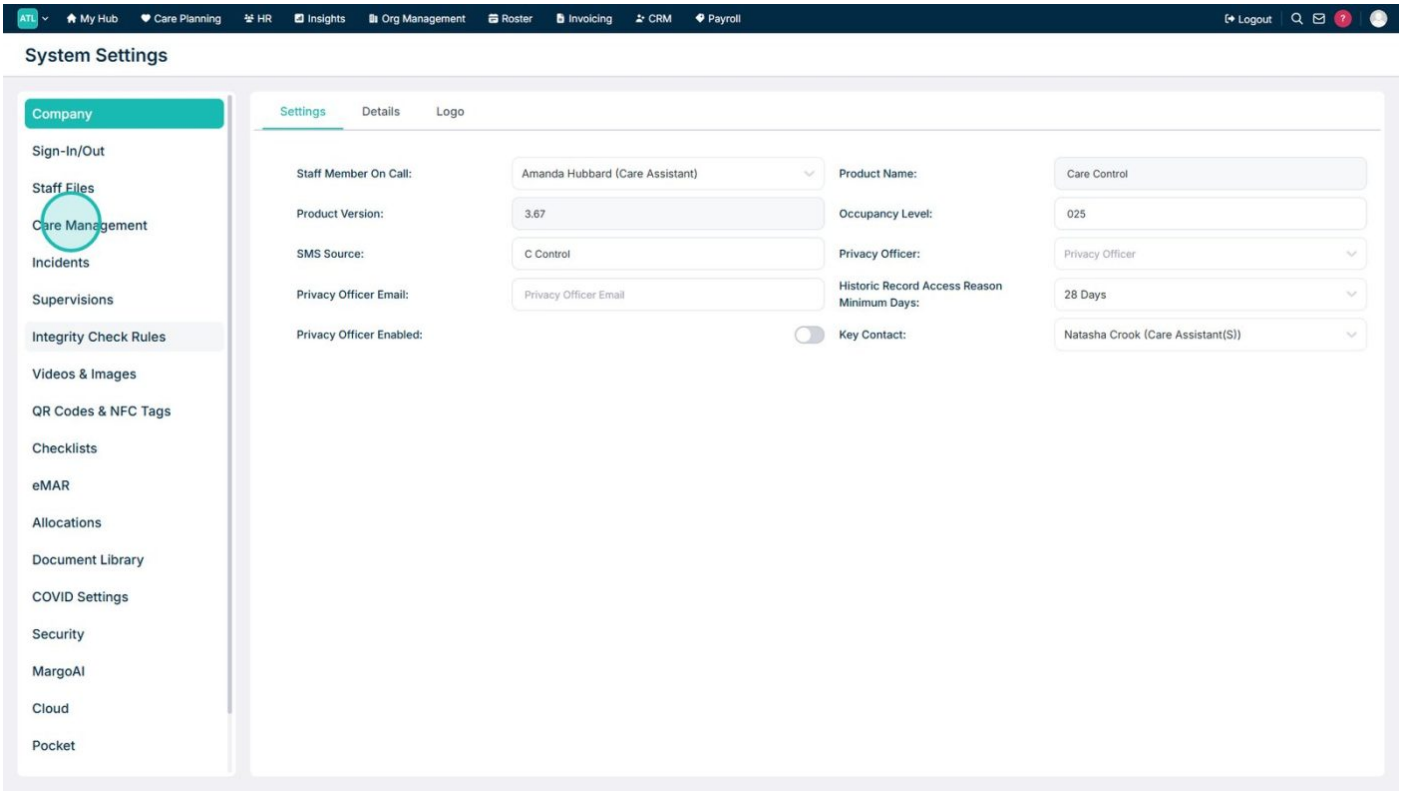

- Open System Settings

- Navigate to Care Management
- Enable Enhanced Consents

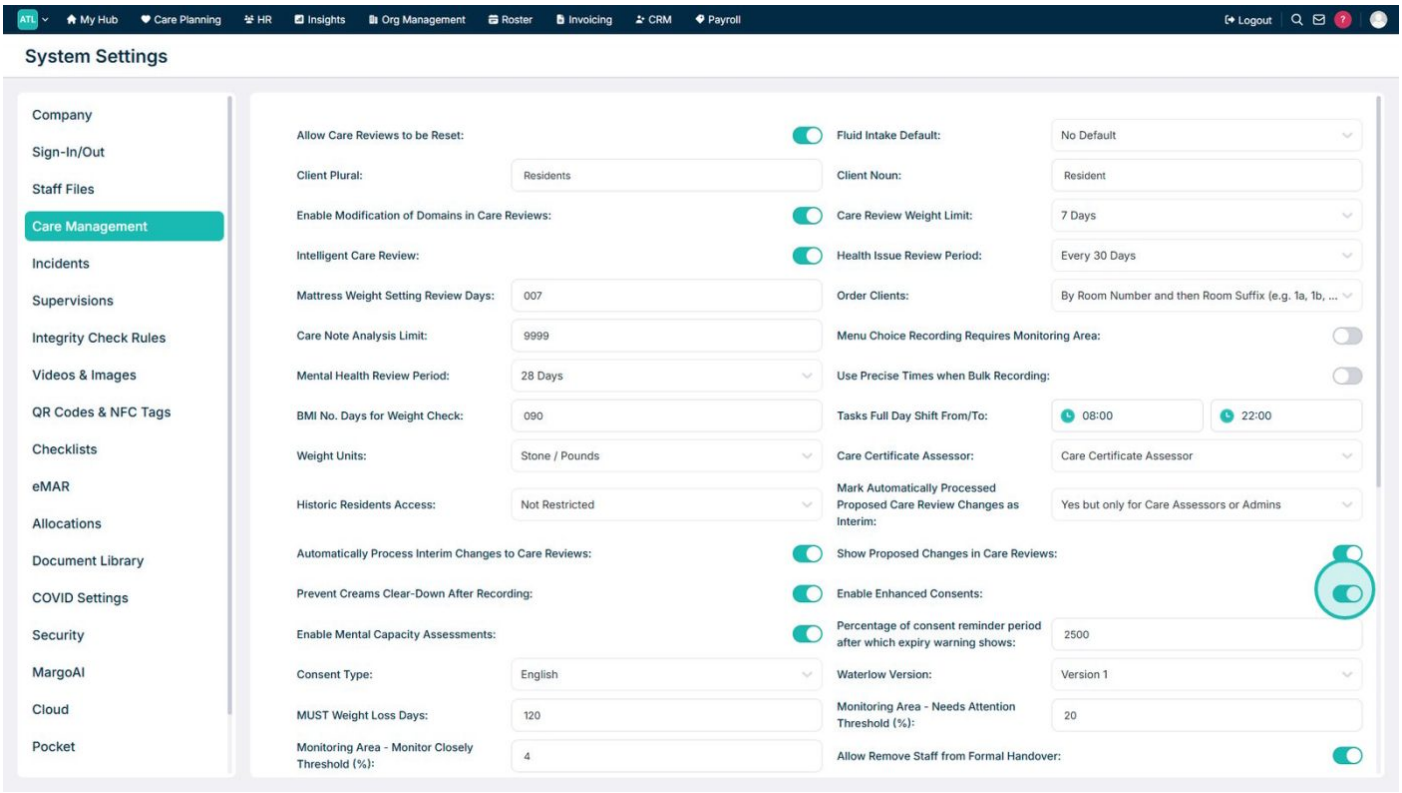

Open System Settings from the Advanced section.

Select Care Management from the sidebar.

Switch on Enable Enhanced Consents.

Top tip

Enable Enhanced Consents before staff begin using the new consent process so the updated consent features are available within Care Planning.
