Setting up Single Sign on for Cloud

Windows Org Man Archive · https://cclearninghub.co.uk/docs/setting-up-single-sign-on-for-cloud/

Setting up Single Sign on for Cloud

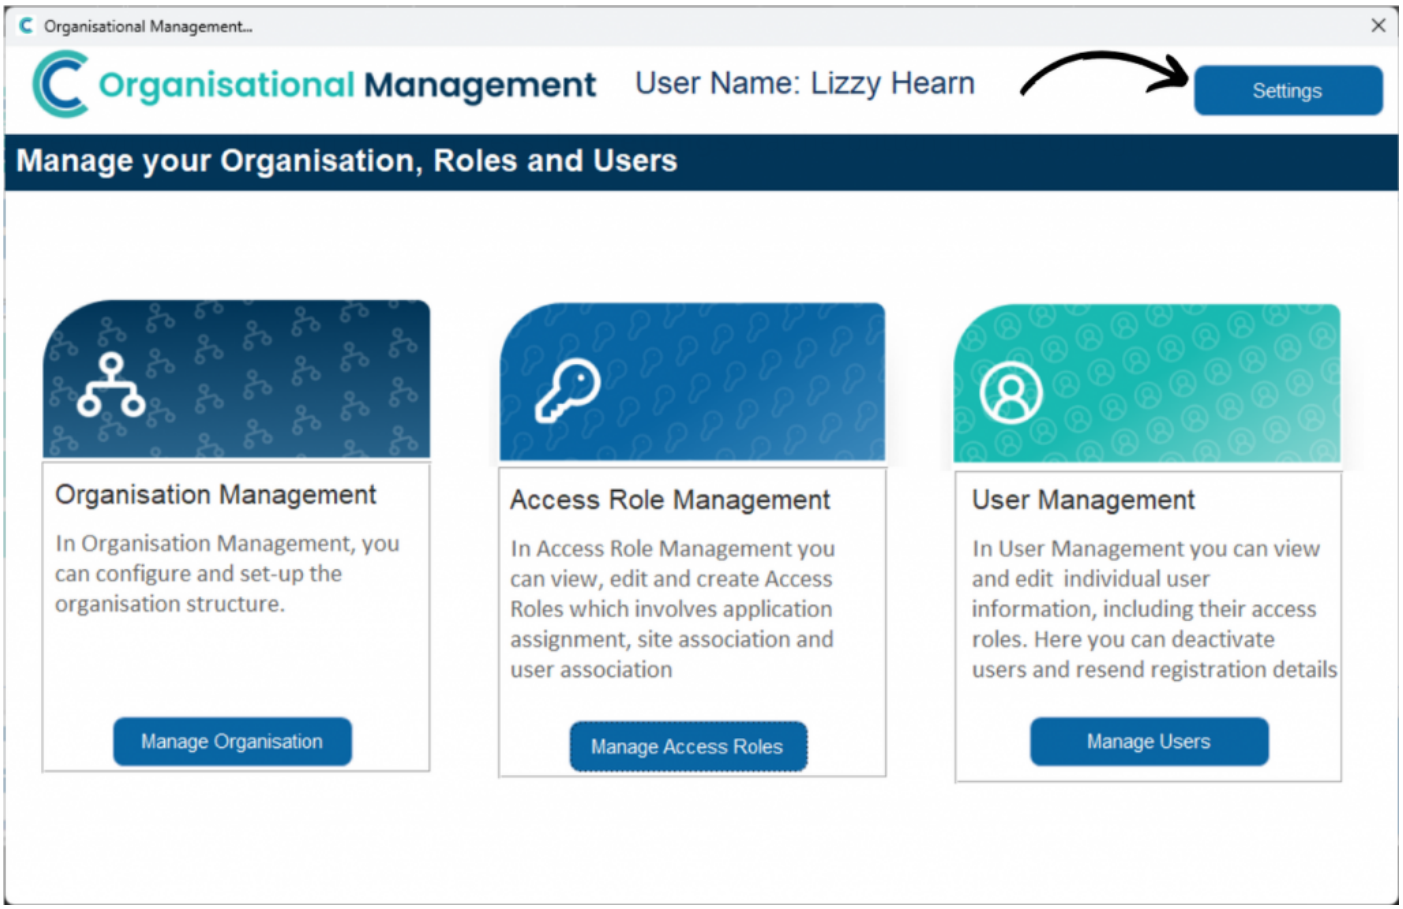

This guide will cover how to set up Microsoft 365 / Azure Active Directory single sign-on for Care

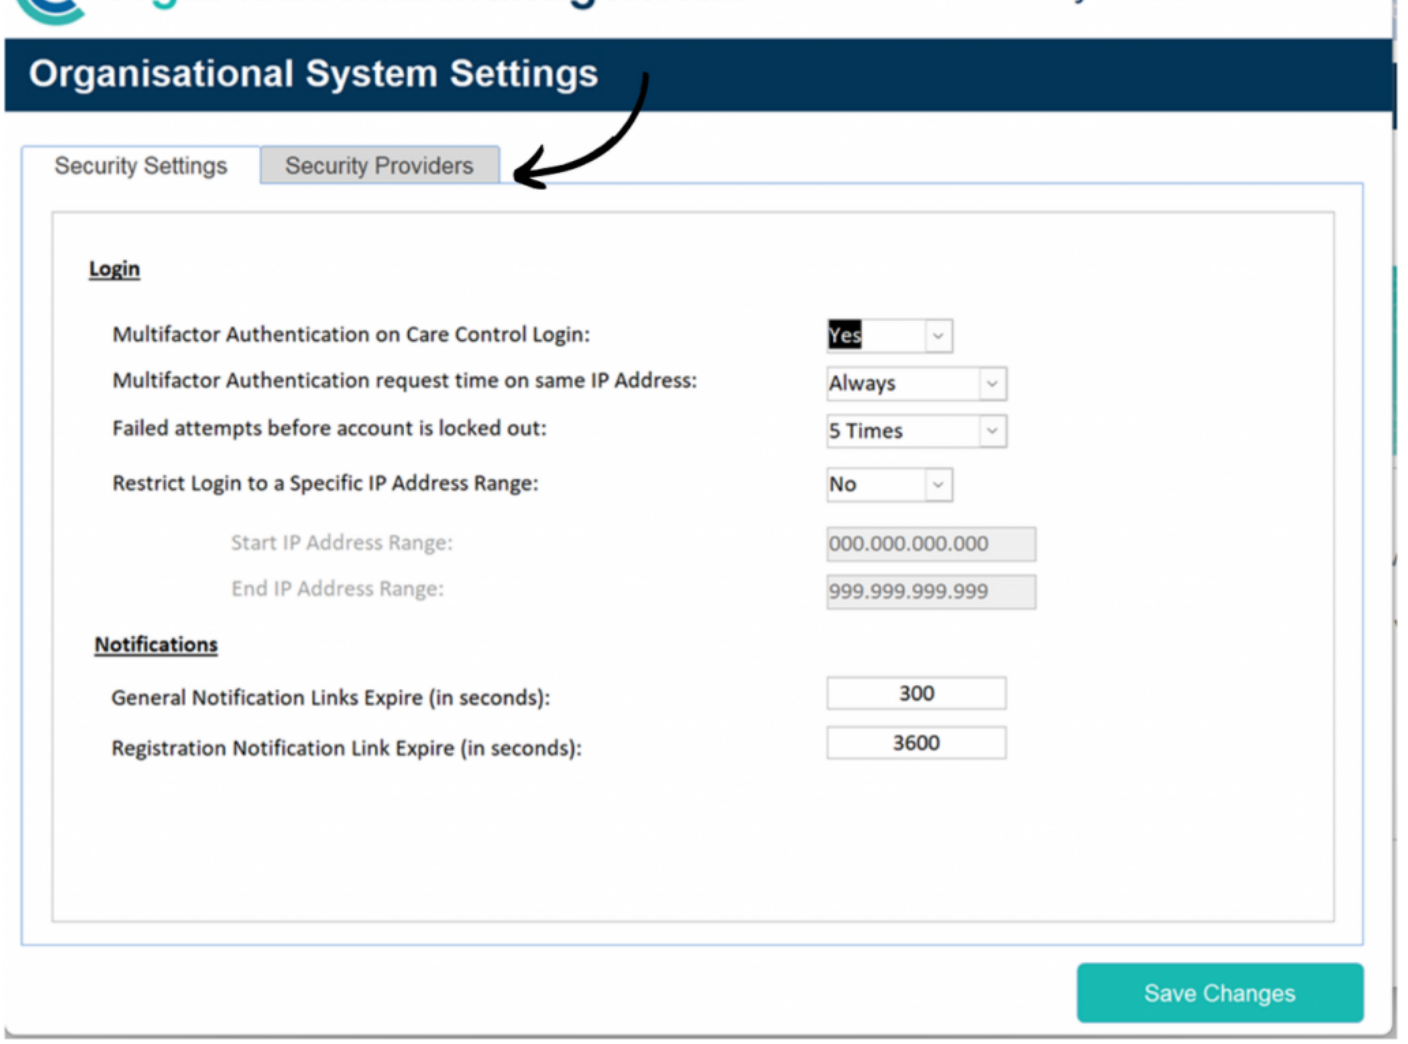

1

In the Administration of Care Control Windows, navigate to the **Organisational Management** tool, which can be found under the Advanced Stuff tab.

2

Organisational Management...
Organisational Management
User Name: Lizzy Hearn
Settings
Manage your Organisation, Roles and Users
Organisation Management
In Organisation Management, you can configure and set-up the organisation structure.
Manage Organisation
Access Role Management
In Access Role Management you can view, edit and create Access Roles which involves application assignment, site association and user association
Manage Access Roles
User Management
In User Management you can view and edit individual user information, including their access roles. Here you can deactivate users and resend registration details
Manage Users

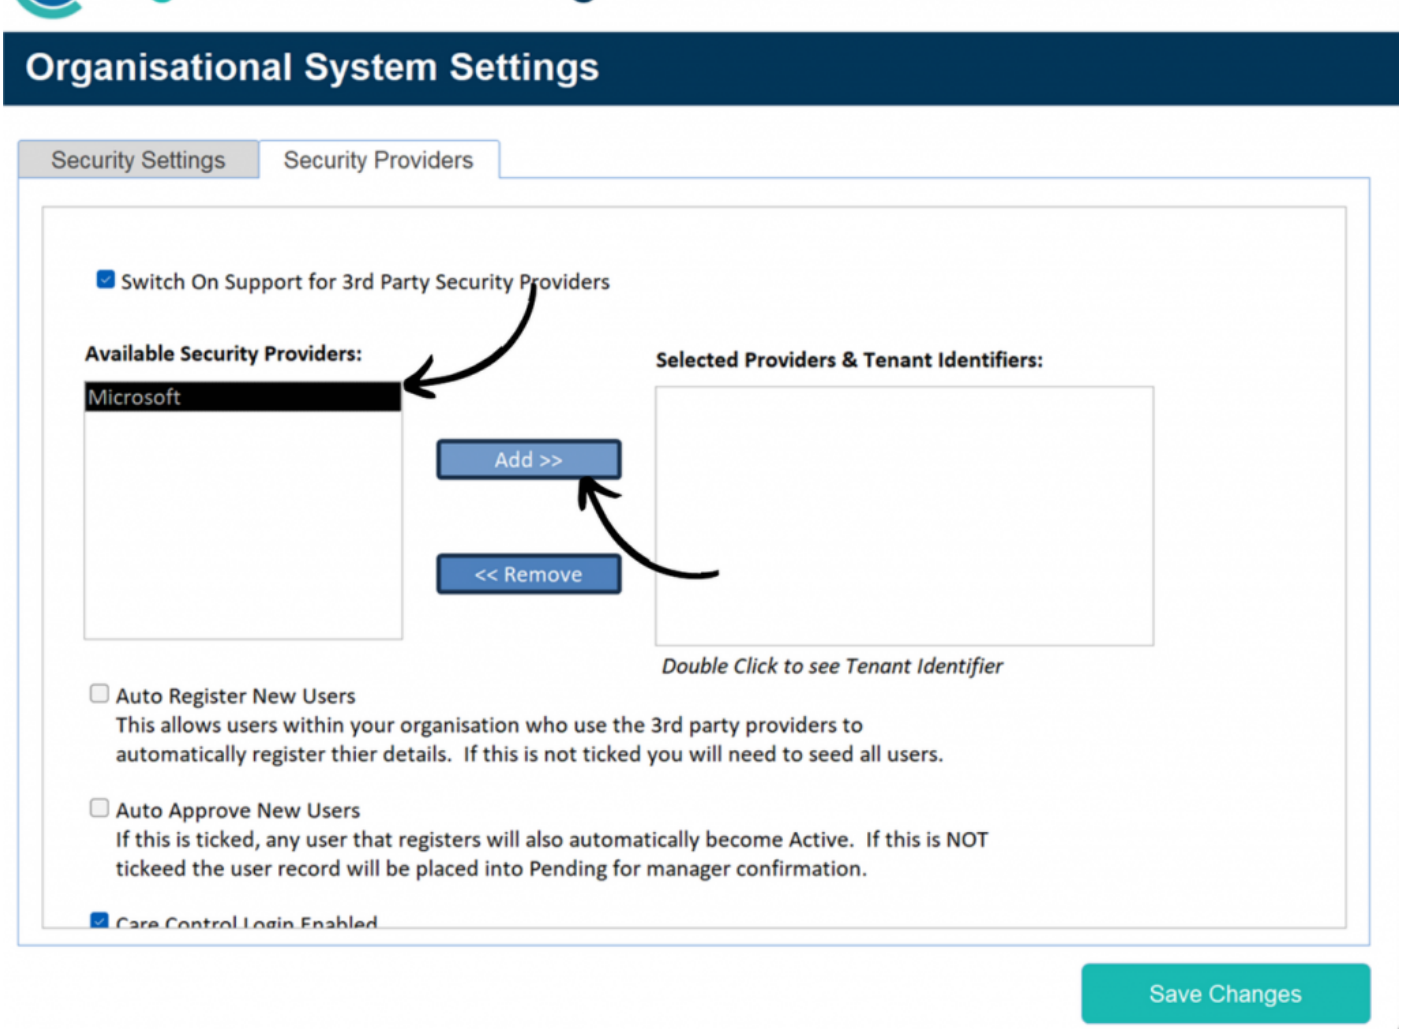

3

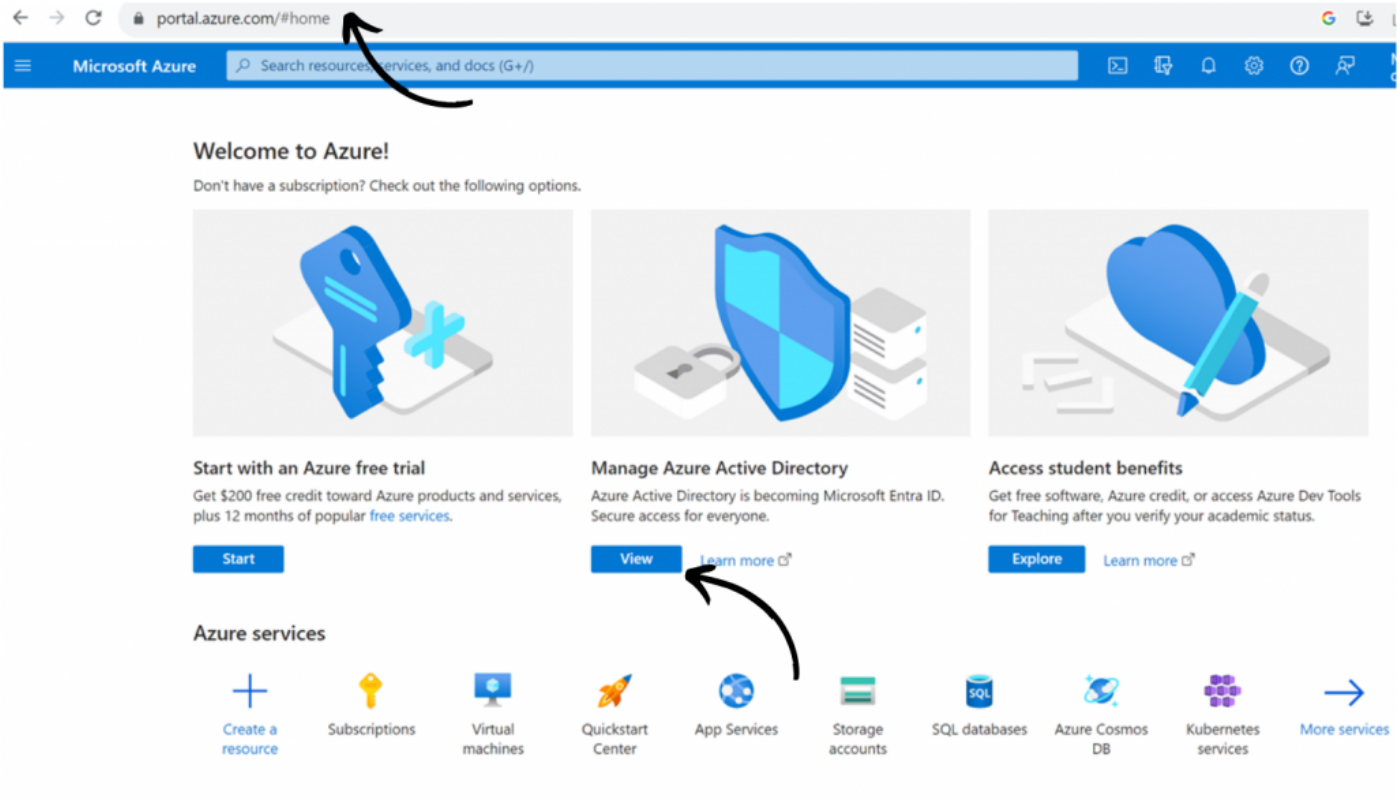

Select the second tab, labelled **Security Providers**.

4

First, tick the **Switch On Support for 3rd Party Providers** box.

Then, select **Microsoft** from the list on the left hand side and press **Add** to move it into the list on the right hand side.

Organisational System Settings
Security Settings
Security Providers
Switch On Support for 3rd Party Security Providers
Available Security Providers:
Microsoft
Add >>
<< Remove
Selected Providers & Tenant Identifiers:
Double Click to see Tenant Identifier
Auto Register New Users
This allows users within your organisation who use the 3rd party providers to automatically register thier details. If this is not ticked you will need to seed all users.
Auto Approve New Users
If this is ticked, any user that registers will also automatically become Active. If this is NOT tickeed the user record will be placed into Pending for manager confirmation.

5

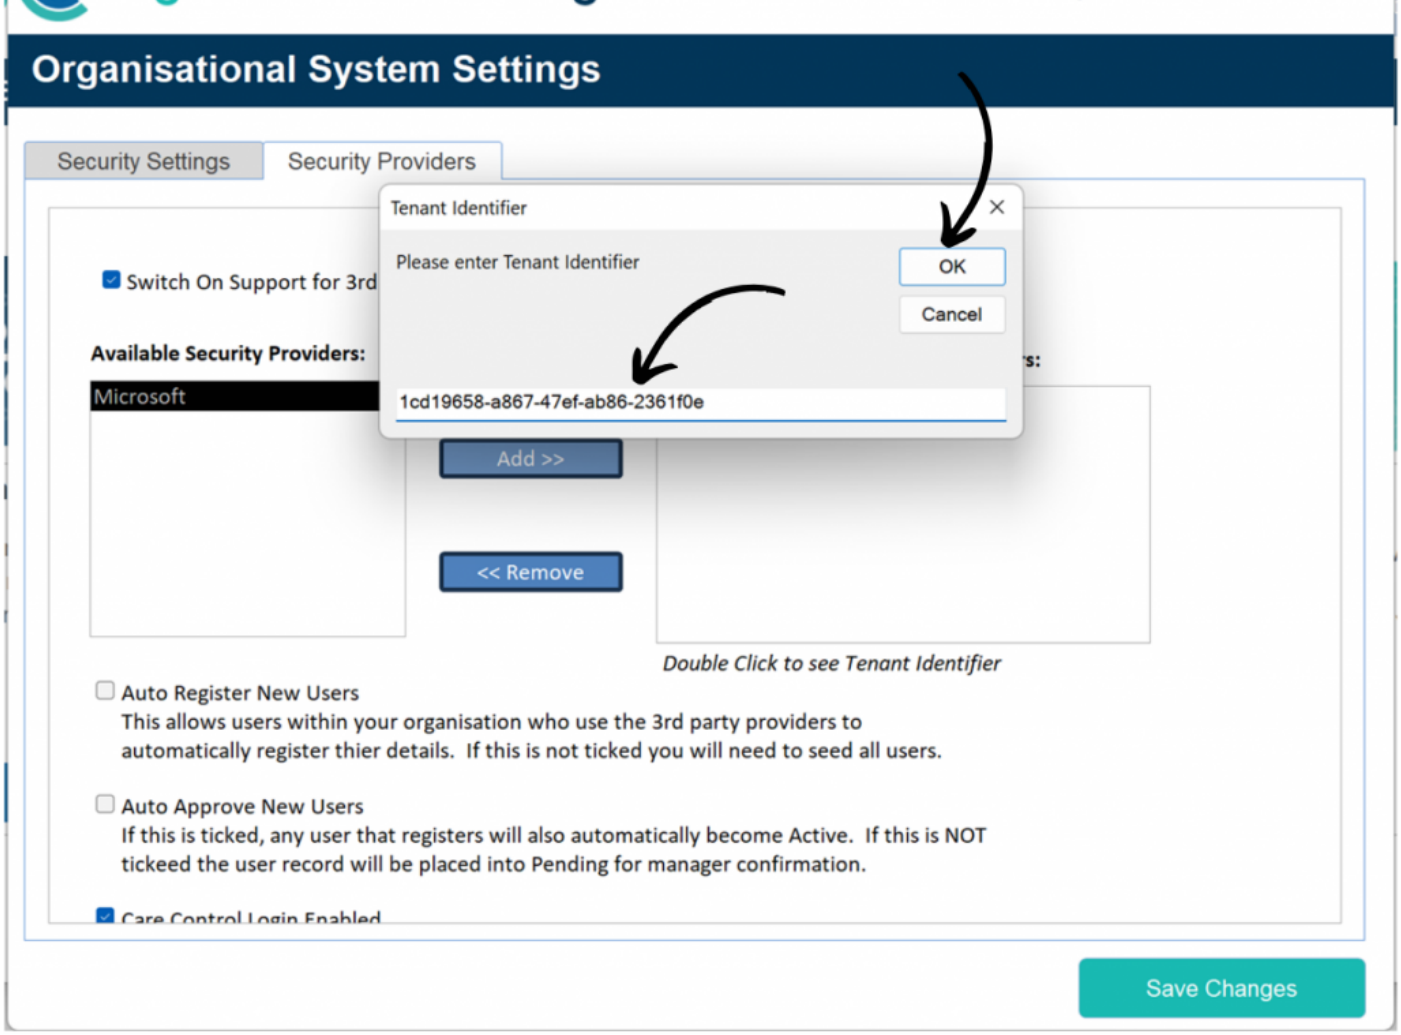

Within your web browser, navigate to your organisations **Azure Home Portal** (www.portal.azure.com/#home).

Select **Manage Azure Active Directory** from the dashboard.

6

Here, your **Tenant ID** should be displayed.

7

Back within Care Control Windows, paste the **Tenant ID** into the dedicated box and press **OK**.

8

Now, when on Care Control Cloud, select **Sign In with Microsoft** on the log-in screen.

Welcome to Care Control!
